I have to stop home health PT & OT for now because I was just informed that they need to get back in network with the 3rd party company OHP Medicaid just started using. The company? HealthHelp- a company based in TX that specializes in using AI to reduce costs. AWESOME. So my Healthcare is being managed by AI? And they think thats okay? I noticed OHP conveniently leaves that out on their website about the changes too. I am not happy. This is insane. I cant get real help because they chose to use robots to save money. AI really should have no place in healthcare & making decisions for patients/providers. Im so mad. Ive been busting my butt to make progress with my health & fighting to exist outside of my bed. And even if its temporarily, I should not have to go without my medical care because they decided to go with AI to save money. My providers arent happy either.
