### Opening questions:

- 1) Will there be layoffs or facility closures?

*At the core of this endeavor is the need to grow so we can provide more patient access, and that includes growing our team. It's too early in this process to know how we'll be organized. There are a lot of unknowns, but we remain rooted in our core value of people-first.*

- 2) Will OHSU and Legacy Facilities retain their names and branding?

*It's too early to answer that question. Leadership from both organizations will participate in the strategy development of the combined system. OHSU will be the parent entity, however there are a lot more discussions to be had. Any brand decisions will be thoughtful and intentional in order to respect and further the shared brand equities of both organizations. A future-facing approach will be strategic, data-informed and inclusive.*

- 3) People are interested in how this will impact them and their teams. Can you talk about what this will mean to individual OHSU members?

*We don't yet know the impact on individuals and teams. That is something we will be looking at in the transition plan – how people and programs can come together and be best managed.*
