Emergency and Exempt Transactions

- (1) Pursuant to ORS 415.501(8)(a), the Authority, for good cause shown, may exempt an otherwise covered transaction from review if the Authority finds that:

- (b) The transaction is urgently needed to protect the interest of consumers and to preserve the solvency of an entity other than a domestic health insurer.
- (2) If a proposed transaction would otherwise be subject to review because it involves a change in control of a domestic health insurer, the Department, in consultation with the Authority, for good cause shown, may exempt the transaction from review if the Department finds that:
- (a) There is an emergency situation, including but not limited to a public health emergency, which immediately threatens health care services; and
- (b) The transaction is urgently needed to protect the interest of consumers and to preserve the solvency of the domestic health insurer.
- (3) An applicant for emergency exemption under paragraph (1) of this rule must provide the Authority, and an applicant for emergency exemption under paragraph (2) of this rule must provide the Department, with the following:
- (a) A detailed explanation of the grounds for the application, including a complete statement of the facts, circumstances and conditions which justify emergency exemption and the conditions necessitating immediate relief;

(a) Provide a period for the filing of comments in respect of the application unless the Authority or the Department, as applicable, determines that:

(A) The public interest in providing comments is outweighed by the interest in confidentiality of the applicant for emergency exemption; or

(B) the nature of the emergency situation presented and the urgency of the need for emergency exemption will not allow time for the filing and consideration of comments.

(b) Provide the applicant with three business days' advance notice prior to posting the application for public comment.

(5) The Department must promptly provide an application filed under paragraph (2) of this rule to the Authority, and such an application must be deemed to include an express consent to the sharing between the Authority and the Department of such application and all material in connection therewith.

(6) The Authority will publish from time to time a list of other categories or types of transactions that must be exempt from review under these rules.

(7) An applicant for emergency exemption may contest the Authority's determination as provided in OAR 409-070-0075. Unless otherwise ordered in the course of such proceedings, the time periods for preliminary and comprehensive review of the transaction under OAR 409-070-0055 or OAR 409-070-0060 must remain applicable, without abatement or reduction, in the event a preliminary or comprehensive review of the transaction is thereafter required.

(8) For emergency transactions that the Authority exempts from review, the Authority must publish the entity names and type of the covered transaction the earlier of either (a) or (b) of this section:

(a) no less than six months after the transaction has consummated or closed, or

Acquisition of Control; Presumptions and Disclaimers

(1) The following presumptions will apply in determining whether a transaction involving a health care entity results in the acquisition of direct or indirect control of that health care entity:

(a) A transaction must be rebuttably presumed to involve an acquisition of control of a health care entity that is a domestic health insurer or a coordinated care organization if a person, directly or indirectly, acquires voting control of ten percent (10%) or more of any class of voting securities of the domestic health insurer or the coordinated care organization.

(b) For a health care entity other than a domestic health insurer or coordinated care organization, a transaction must be rebuttably presumed to involve an acquisition of control of the health care entity if a person, directly or indirectly, acquires voting control of twenty-five percent (25%) or more of any class of voting securities of the health care entity.

(c) For any health care entity, a transaction must be irrebuttably presumed to involve an acquisition of control of the health care entity if a person, directly or indirectly, acquires voting control of more than fifty percent (50%) of any class of voting securities of the health care entity.

(2) A person seeking to rebut the presumption described in paragraph (1)(b) of this rule must apply to the Authority, on a form prescribed by the Authority, for a disclaimer of control determination. Such application must show that the proposed transaction would not result in control of the health care entity, or that control would not be changed by the proposed transaction, and must fully disclose all material relationships and bases for control between the disclaimer applicant and the person(s) to which the disclaimer applies, as well as the basis for disclaiming control or change of control. The Authority may determine, after giving persons that have an interest in the Authority's determination notice and opportunity to be heard and after making specific findings of fact to support the determination, that control would exist or would be changed by a proposed transaction.

(3) A disclaimer application filed under paragraph (2) of this rule is effective unless, within thirty calendar days after the Authority receives the disclaimer application, the Authority notifies the disclaimer applicant that the disclaimer has been disallowed.

(4) Paragraphs (2) and (3) of this rule do not apply to transactions involving a domestic health insurer or a coordinated care organization. For a domestic health insurer, the disclaimer of affiliation procedure is in ORS 732.568. For a coordinated care organization, the disclaimer of affiliation procedure is in OAR 410-141-5315.

(5) Filing a disclaimer application does not relieve a health care entity of the requirement to submit a notice of material change transaction in accordance with OAR 407-070-0030. If a disclaimer application shows that a proposed transaction would not result in control of the health care entity or that control would not be changed by the proposed transaction, then the Authority must discontinue any review of the transaction and refund any fee paid in connection with the notice of material change transaction.

(6) A health care entity that submits a disclaimer application may contest the Authority's determination

as provided in OAR 409-070-0075. Unless otherwise ordered in the course of such proceedings, the time periods for preliminary and comprehensive review of the transaction under OAR 409-070-0055 or OAR 409-070-0060 will remain applicable, without abatement or reduction, in the event a preliminary or comprehensive review of the transaction is thereafter required.

(7) A disclaimer application must be compliant with all state or federal laws regarding accessibility requirements and must specifically adhere to the Web Content Accessibility Guidelines (WCAG) 2.1 Level AA in accordance with 28 CFR 35.200 through 35.205.

Requirement to File a Notice of Material Change Transaction

(1) Any health care entity must:

(a) Submit to the Authority a notice of material change transaction not involving an activity described in ORS 732.521 with respect to a domestic health insurer. The notice must contain the information required under OAR 409-070-0045.

(b) Submit to the Department a notice of material change transaction for an activity described in ORS 732.521 with respect to a domestic health insurer. The notice must be submitted as an addendum to filings required by ORS 732.517 to ORS 732.546 or ORS 732.576. The Department must promptly provide to the Authority the notice submitted under this subsection to enable the Authority to conduct its review in accordance with OAR 409-070-0035.

(2) The notice of material change transaction required under paragraph (1) of this rule must be filed not fewer than 180 calendar days prior to the proposed effective date of the material change transaction. For purposes of these rules, the effective date of a material change transaction is the date when the proposed transaction will be consummated or closed. If the Authority determines that a health care entity has failed to timely file a notice of material change transaction pursuant to this subsection, the Authority may refer the health care entity to the Oregon Department of Justice.

(3) Effective July 1, 2026 a fee must be paid to the Authority in connection with a complete notice of material change transaction accepted under this rule on or after July 1, 2026.

(a) The fee amount must be \$2,000~~[new amount]~~ for an emergency exemption request in accordance with OAR 409-070-0022.

(b) The fee amount must be \$30,000 for a preliminary review in accordance with OAR 409-070-0055.

(c) The fee amount for a comprehensive review must be based on the average annual revenue or projected revenue, as applicable, in accordance with OAR 409-070-0015(1), of the following entity (the "smaller entity"):

(A) For transactions between two entities, the entity with smaller revenue; or

(B) For transactions involving more than two entities, the entity with the second largest average annual revenue.

(d) Comprehensive review fees must be determined as follows:

(A) For transactions in which the revenue of the smaller entity is greater than or equal to \$10 million and less than \$50 million, the fee must be \$200,000.

(B) For transactions in which the revenue of the smaller entity is greater than or equal to \$50 million and less than \$200 million, the fee must be \$250,000

(C) For transactions in which the revenue of the smaller entity is greater than or equal to \$200 million and less than \$500 million, the fee must be \$300,000

(D) For transactions in which the revenue of the smaller entity is greater than or equal to \$500 million, the fee must be \$350,000

e The fee amount for a comprehensive review includes the fee associated with the preliminary review.

f For purposes of this rule, "revenue" includes projected revenue, if applicable in accordance with OAR 409-070-0015(1)(b)(B).

(4) Fees required under Section (3) must be paid within 30 calendar days following receipt of an invoice for payment. Any decision regarding an emergency exemption or a proposed material change transaction may be conditioned on the payment of fees pursuant to paragraph (3) of this rule. The obligation of the parties to pay the fee to the Authority does not depend on whether the Authority approves the transaction. The obligation to pay fees is an obligation of the person filing the notice of material change transaction and any other parties to the transaction designated by the Authority.

(5) The fee for an emergency exemption request applies regardless of any other review or determination the Authority has started.

(3) Any approval of a material change transaction may be conditioned on the parties reimbursing the Authority pursuant to paragraph (2) of this rule. The obligation of the parties to reimburse the Authority does not depend on whether the Authority approves the transaction. The obligation to reimburse is an obligation of the person filing the notice of material change transaction and any other parties to the transaction designated by the Authority.

(4) The Authority must notify applicants before any costs are incurred when a transaction review requires the use of outside advisors.

(a) There is no substantial likelihood that the transaction would:

(A) Have material anticompetitive effects in the region (such as significantly increased market concentration among providers when contracting with payers, carriers, or coordinated care organizations, or among carriers when establishing health benefit premiums that is likely to increase costs for consumers) not outweighed by benefits in increasing or maintaining services to underserved populations;

(B) Be contrary to law;

(C) Jeopardize the financial stability of a health care entity involved in the transaction; or

(D) Otherwise be hazardous or prejudicial to consumers or the public.

(b) The transaction will benefit the public good and communities by:

- (B) Increasing access to services in medically underserved areas; or
- (C) Rectifying historical and contemporary factors contributing to a lack of health equity or access to services.
- (c) The transaction will improve health outcomes for residents of this state.
- (6) Unless extended by agreement among the Authority, the Department, as applicable, and the parties to the proposed transaction, the Authority must issue a proposed order, or in the case of a material change transaction involving a domestic health insurer, issue a recommendation to the Department, following its comprehensive review within 180 calendar days of the filing of a complete notice of material change transaction, subject to tolling or extension as provided in these rules. Confidentiality; Permitted Disclosures
