

Industry Advisory Committee on Health Care Affordability

Call for Applications

The Oregon Health Policy Board is committed to making health care more affordable for everyone in Oregon. To deliver on this promise, Oregon is recruiting an additional member representing a commercial health plan or insurance carrier for the current [Industry Advisory Committee](#).

Health care is increasingly and unacceptably expensive, making quality health care out of reach for many working families and straining the budgets of the businesses and government agencies that pay for health insurance. Eight out of 10 adults in Oregon report worrying about health care costs in the future.

The **Industry Advisory Committee** provides information and expertise to support the Affordability Committee in developing solutions that deliver real cost-savings and better value for money. The Industry Advisory Committee offers perspectives on cost-saving opportunities and implementation challenges.

Join us in making affordable health care a reality.

If you're passionate about the cost of health care and collaborating to achieve meaningful change, we invite you to apply for membership on the Industry Advisory Committee on Health Care Affordability. Together, we can shape decisions that make a tangible difference in the lives of Oregonians.

To Apply: please complete the Member Application, available [online](#), and submit via email, along with a current resume or CV to OHPB.Affordability@oha.oregon.gov by **Friday, September 4th, 2026**.

What Does the Industry Advisory Committee Do?

- The Industry Advisory Committee is a place for those who deliver and coordinate health care and administer payment for health care to advise the Affordability Committee as it develops its recommendations for making health care affordable in Oregon.
- The Industry Advisory Committee helps the Affordability Committee understand the complex factors contributing to health care costs in Oregon.
- The Industry Advisory Committee offers perspectives on cost-saving opportunities and implementation challenges of recommended solutions and policy ideas proposed by the Affordability Committee.
- The Industry Advisory Committee challenges the existing health care system status quo to promote affordability and value.
- The Industry Advisory Committee fosters collaboration among diverse partners to achieve meaningful health care reform.

Who Should Apply for Membership?

The Oregon Health Policy Board will appoint **one member** to the Industry Advisory Committee. We seek a diverse range of perspectives from across Oregon's health care system, ensuring a balanced representation of key partners. We welcome applications from:

- **Health Care Providers** – Representatives from **large medical groups** who bring direct patient care perspectives and insights on cost challenges and cost containment strategies.
- **Hospitals & Health Systems** – Representatives from hospital systems who can offer perspectives on institutional cost drivers, service delivery, and financial sustainability.

To the greatest extent practicable, Committee members shall represent the various geographic, ethnic, gender, racial, and economic diversity of Oregon.
