14

Operational reports

- Suite of reports, separated by CCO participants and MEHRIP participants, based on roles to include the following requirements:

    - State, CCO and Provider level dashboards reporting total provider submissions to include:
        - Successful provider submissions

    - Meaningful Use reporting status for Organizational level by reporting period

    - Alerts built in for providers who have not made submissions for reporting period by State and CCO level

MiHIN Shared Services

Organizational reports

- Static reports, separated by CCO participants and MEHRIP participants, to include the following requirements:

    - Filter functionality based on roles

    - Stratification by CCO organization, practice, practice physical location, provider, Race, Ethnicity and Age

    - Selection of reporting period

    - Measure selection

    - Payer selection

    - Meaningful Use participation (only MEHRIP report)

Communications – Needs and Priorities

- Coming in May, training material outline for workgroup review and feedback

- Looking now for input on information needs -- FAQs or other communications materials
  - Topics to cover
  - Audience needs
  - Timing/ priorities

Potential FAQ Topics

- Programs
  - Which programs will require use of the CQMR and when?
  - Which programs can optionally be supported through the CQMR and when?

- Measure sets
  - What measures can be reported through the CQMR?
  - Where are the measure specifications?

- User needs
  - Are there fees to use the CQMR?
  - When and how will users register to use the CQMR?
  - When and how do users get training on use of the CQMR?
  - What legal agreements need to be executed to use the CQMR?

- Other topics?

Next Steps

- Next meeting: April 11, 10-noon

- Feedback and suggestions for future meetings: katrina.m.lonborg@state.or.us
