Introduction

This guide explains how to review the status of files you’ve submitted in the CQMR. For information on how to submit files, how to view dashboards and reports, and other topics, please see additional [training materials](#).

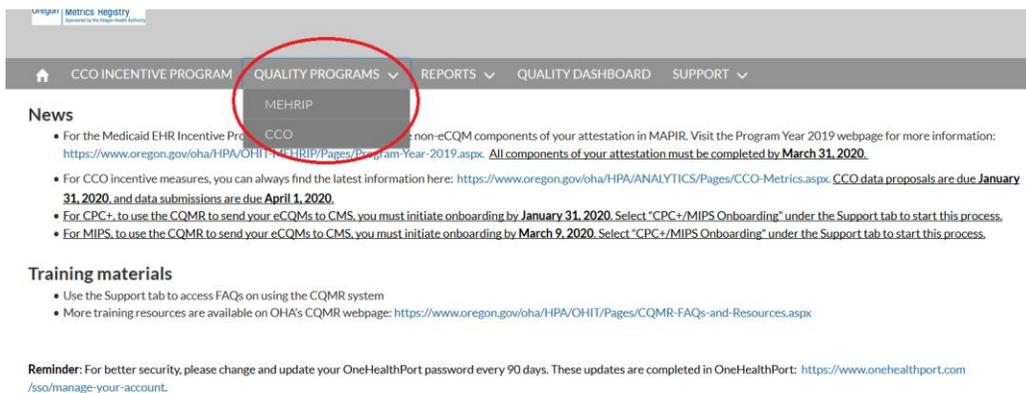

Viewing Quality File Validation Status

When you submit a quality file, the CQMR system validates whether the submitted file meets certain specifications. You can view the file’s validation status in the CQMR. As described in the [next section](#), you also will receive an email explaining the status.

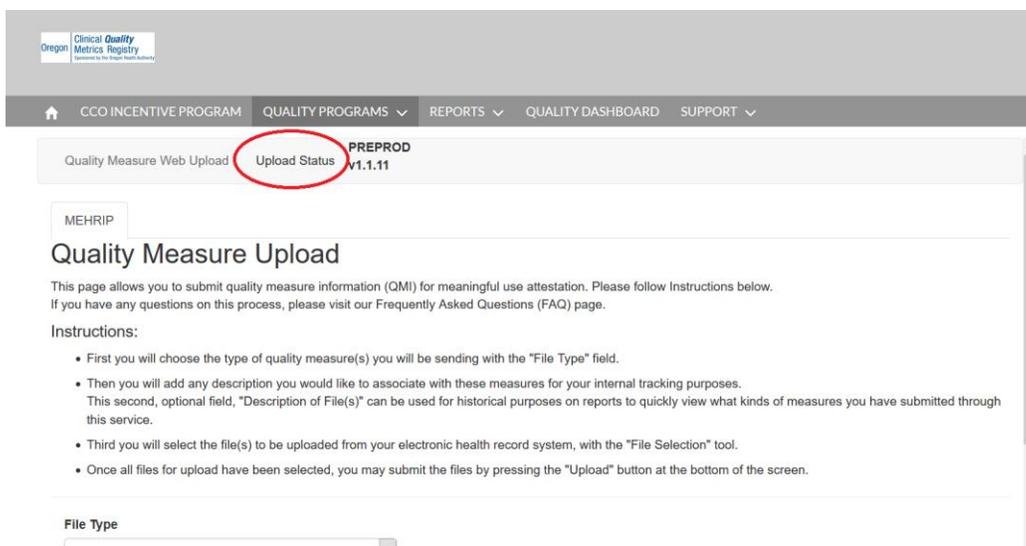

Accessing the File Upload Status Page

In the CQMR portal, you can view a file's status on the file upload status page. You can navigate to the page as described below; if you are uploading files in the CQMR portal, you will be taken to the file upload status page after you click the upload button.

1. Log into the CQMR from the OneHealthPort [single sign-on page](#). In the top toolbar of the home screen, click on the Quality Programs tab and select your program from the drop-down menu.

2. This takes you to the Quality Measure Upload page for your program. "Upload Status" will display near the top of the page, and clicking it will take you to the Upload Status page.

3. On the Upload Status page, you can review validation status information, which includes

- information you entered when you uploaded the file (file name, description),
- the date and time the file was uploaded,
- file type,
- status and status message (reason for the validation status),
- the data submitter (the email attached to your OneHealthPort account), and
- transaction Identification (ID).

CCO INCENTIVE PROGRAM | QUALITY PROGRAMS | REPORTS | QUALITY DASHBOARD | SUPPORT

Quality Measure Web Upload | Upload Status **PREPROD v1.1.11** | To Refresh this Page click the Upload Status Page tab

Quality Measure Upload Status

You will receive an email notification of file(s) submitted and the status of each file.
If a file fails validation, the email will contain information on why validation failed and instructions to help you resolve the issue for resubmission.

Step	Passed	Start Time	End Time	Progress %	Errors	Message
File Upload	True	Jan. 15, 2020, 9:09 PM	Jan. 15, 2020, 9:09 PM	100.0	0	Passed
Validation	True	Jan. 15, 2020, 9:09 PM	Jan. 15, 2020, 9:09 PM	100.0	0	Validated File

---- Summary ----
 Number of duplicate lines: 0
 Number of unmatched lines: 0
 ---- Raw Errors ----

Datalake	True	Jan. 15, 2020, 9:09 PM	Jan. 15, 2020, 9:10 PM	100.0	0	Passed
Email	True	Jan. 15, 2020, 9:10 PM	Jan. 15, 2020, 9:10 PM	100.0	0	"No Email" Flag Set. Skipping Email Step

- To help troubleshoot, if one or more rows in a file fail, the file is flagged with an error message, and file status error messages provide detail about which rows failed validation and why.

File Status Error Messages

Because different programs set different reporting parameters, error messages vary depending on the program for which you are submitting data. Examples for the Medicaid EHR Incentive Program and CCO Incentive Metrics are shown below. For more information about data submission for these programs, see the program-specific training materials on the [CQMR Resources page](#).

Medicaid EHR Incentive Program

The file validation depends on the file type submitted:

- For a user submitting an Excel template (flat file), required fields must be complete and in the correct format (e.g., the eligible professional’s NPI must be entered in the correct field, with the correct number of digits), and
- For a user submitting a QRDA 3 file, the file must conform to the schematron.

File Status Error Example – missing provider name and NPI

PREPROD
v1.1.11

Quality Measure Web Upload Upload Status

Quality Measure Web Upload Progress

File Type	File Name	Status	Status Message	Description	Transaction ID
Flat File	CQMR_Medicaid_EP_Excel_template_2019_9.xlsx	Failed	Email sent		HIEIes6D-ogqpFZnMhNNC

Step	Passed	Start Time	End Time	Progress		
				%	Errors	Message
File Upload	True	Mar. 09, 2020, 8:32 PM	Mar. 09, 2020, 8:32 PM	100.0	0	Passed
Validation	False	Mar. 09, 2020, 8:32 PM	Mar. 09, 2020, 8:32 PM	100.0	1	Failure: Provider Name is a required field, Provider NPI is a required field
Failure Email	True	Mar. 09, 2020, 8:32 PM	Mar. 09, 2020, 8:32 PM	100.0	0	Email sent

[Back](#)

CCO Incentive Metrics

The file validation depends on the type of file submitted and on whether an uploaded file matches to a row of an approved CCO data proposal. More information can be found in the CCO Data Submissions guide on the [CQMR Resources page](#).

- An Excel template must contain Program Year, CCO Unique ID, Organization TIN, Practice TIN and PCPCH ID (if reporting at the practice level), and Provider Name and NPI (used only if reporting at the individual provider level).
- A QRDA 3 file submitted for practice-level reporting must use the naming convention “[Year]_[CCO ID]_[PCPCH ID]_[file name]” (for example, a QRDA 3 file being submitted for Advanced Health from ABC Clinic, with PCPCH ID 12345, for 2019 could be named “2019_AdvH_12345_ABC” or “2019_AdvH_12345_ABC Clinic.”
- A QRDA 3 file submitted for individual provider-level reporting does not require a naming convention. Matching is based on the provider NPI within the QRDA 3 file.

File Status Error Examples:

- Missing Organization TIN for a reporting organization in row 1 of a file

The screenshot shows the 'Quality Measure Web Upload Progress' interface. At the top, there is a navigation bar with 'CCO INCENTIVE PROGRAM', 'QUALITY PROGRAMS', 'REPORTS', 'QUALITY DASHBOARD', and 'SUPPORT'. Below this, the page title is 'Quality Measure Web Upload Progress' and the version is 'v1.1.11'. The main content area displays a table with columns: File Type, File Name, Status, Status Message, Description, and Transaction ID. A row is highlighted in red, indicating a failed upload. The file name is 'CCODataSubmissionTemplate_Year7_2019_11-05-19_v2_NOORGTIN_f6K7pr6.xlsx' and the status is 'Failed' with the message 'Email sent'. Below this, a progress table shows the upload step passed but the validation step failed. A summary section indicates that the number of lines with 'Flag ORG TIN missing in required field' is 1. A red circle highlights the 'Raw Errors' section, which lists 'Line 1: Flag ORG TIN missing in required field'. Finally, a 'Failure Email' row shows that an email was sent.

File Type	File Name	Status	Status Message	Description	Transaction ID
Data Submission	CCODataSubmissionTemplate_Year7_2019_11-05-19_v2_NOORGTIN_f6K7pr6.xlsx	Failed	Email sent	Org TIN 001	No GPu6DdHb-i6y17MNxLbX7

Step	Passed	Start Time	End Time	Progress %	Errors	Message
File Upload	True	Dec. 04, 2019, 2:06 PM	Dec. 04, 2019, 2:06 PM	100.0	0	Passed
Validation	False	Dec. 04, 2019, 2:06 PM	Dec. 04, 2019, 2:06 PM	100.0	1	File Error Percentage(20%) exceeds threshold: 0%

---- Summary ----
 Number of 'Flag ORG TIN missing in required field' lines: 1
 Number of duplicate lines: 0
 Number of unmatched lines: 0

---- Raw Errors ----
 Line 1: Flag ORG TIN missing in required field

Step	Passed	Start Time	End Time	Progress %	Errors	Message
Failure Email	True	Dec. 04, 2019, 2:06 PM	Dec. 04, 2019, 2:07 PM	100.0	0	Email sent

- Missing PCPCH ID for a reporting practice

File Validation Email Explanation

Any time you submit a quality file – whether by file upload in the CQMR or by Direct secure message, SFTP, or API – you will automatically receive an email notification detailing the validation status of the submitted quality file. For each file submitted, the validation status summary will include the transaction ID, file name, and a status message for each file. Files will be grouped by those that passed and those that did not pass successfully.

TIP: If you encounter an error and need to contact the help desk, the email notification is useful for identifying the issue that needs to be resolved.

Similar to the [file upload status page](#) in the CQMR portal, the “Status Message” column of the email will indicate that a file passed validation or, if a file failed validation, detail the reason(s). Examples are shown below.

Medicaid EHR Incentive Program Validation Emails

As noted [above](#), the file validation depends on the file type submitted:

- For a user submitting an Excel template (flat file), required fields must be complete and in the correct format (e.g., the eligible professional’s NPI must be entered in the correct field, with the correct number of digits), and
- For a user submitting a QRDA 3 file, the file must conform to the schematron.

Example emails are shown below.

CCO Incentive Metrics Validation Emails

As noted [above](#), the file validation depends on the type of file submitted and on whether an uploaded file matches to a row of an approved CCO data proposal. More information can be found in the CCO Data Submissions guide on the [CQMR Resources page](#).

- Excel template must contain Program Year, CCO Unique ID, Organization TIN, Practice TIN and PCPCH ID (if reporting at the practice level), and Provider Name and NPI (used only if reporting at the individual provider level).
- QRDA 3 file must include (1) in the file name the Program Year, CCO Unique ID, and PCPCH ID and (2) within the file the provider NPI (if reporting at the individual provider level)
