Provider Directory User Acceptance Test (UAT)

Who?
- We want YOU!
- The PDAC and SMEs are invited to participate in the UAT test event

What?
- UAT is an opportunity for a small group of users to test early capabilities of the PD solution prior to official "Go Live".
- Testers will be given scenarios or test scripts to follow and will have the opportunity to report essential feedback to OHA.

When?
- **End of July- August 2018 (4 weeks)***
- Suggested Time commitment: First 2 weeks: max 4-6 hours per week; Second 2 weeks: max 2-4 hours per week

Where?
- Although the Kick-Off sessions will be on-site, all testing can be conducted remotely

Why?
- The purpose of UAT is for users who will one day be accessing the statewide Provider Directory to test the system to ensure daily workflow needs are met.

A Kick-Off event (1-2 days) will be hosted at an OHA facility to present expectations, testing process, and training; Testers will receive a suggested timeline to complete test activities. Goal will be to focus on getting critical input the first two week then shift to lighter support the last 2 weeks.
