5:00 pm reception, film screens at 6:00 pm  
[Register](#) today for this no-fee event.

Hosted by: [Department of Medical Informatics and Clinical Epidemiology](#) at Oregon Health & Science University

information when and where it is needed. The "No Matter Where" documentary brings alive the concept of health information exchange (HIE) and its importance of effective and safe healthcare. This 56-minute documentary follows the journey of pioneers who have shepherded us into this era and provides a glimpse into the lives of patients, healthcare providers and advocates and adversaries from the public and private sectors. Follow a team of crusaders –doctors, nurses, widows, parents and spouses –working to fix this problem. *Filmmaker: Dr. Kevin B. Johnson*

Immediately following the screening, Susan Otter, State Director of Health Information Technology with the Oregon Health Authority will join the filmmaker and others on a panel discussion about the health information exchange in Oregon. Learn more and [register](#) for this event today.
