

## Office of Health Information Technology

The Oregon Health Authority's (OHA) Office of Health Information Technology (OHIT) serves as a partner and resource for both state programs and other public and private users of HIT. OHIT provides effective HIT policies, programs and partnerships that support improved health for all Oregonians.

### Health Information Technology Oversight Council

#### Outcomes of August Meeting

After a hiatus due to the COVID-19 crisis, the Health IT Oversight Council (HITOC) reconvened on August 6, 2020 for their first meeting since February 2020. The meeting focused on how COVID-19 has changed the healthcare landscape and members discussed implications for health IT. HITOC Members were also updated on Race, Ethnicity, Language, and Disability (REALD) legislation passed in June. The following topics were covered in depth:

#### **HIT Supporting COVID Response**

HITOC heard from several presenters and discussed the impact of COVID and the role of HIT, including:

- Health information exchange efforts by HIT Commons/Collective Platform and Reliance eHealth

  - Collaborative are focused on connecting providers with COVID patient data from various sources.

- OHA's Public Health Division presented on COVID wraparound grants to over 170 community-based organizations to provide contact tracing and social supports/wraparound services to people in isolation and quarantine due to COVID. OHA is exploring the potential to leverage Community Information Exchanges to support this work.

- HITOC members shared the impact of COVID on their organizations' HIT priorities, including ramping up telehealth and transitioning many employees to remote work.

#### **Preliminary Implications for HITOC Strategic Plan**

HITOC's Strategic Plan update work is expected to remain on hold until summer 2021 given the priority and changes related to COVID response and recovery. In the meantime, HITOC expects to focus on urgent priorities, such as the COVID response and HIT, centering health equity, HIT program sustainability, telehealth, and Public Health and HIT.

Meeting materials and agenda are available [here >](#).

## Behavioral Health Learning Collaborative Events

OHA is proud to sponsor two virtual Behavioral Health Learning Collaboratives this September to provide technical assistance to behavioral health organizations around the adoption or upgrade of electronic health record (EHR) systems and the adoption and use of health information exchange (HIE) tools. These events will bring together a variety of subject matter experts and behavioral health stakeholders to discuss topics related to behavioral health and health information technology. Funding for these events is provided through a SAMHSA block grant, and content was developed through the recommendations of the [Health Information Technology Oversight Council Behavioral Health HIT Workgroup](#).

These events are for anyone working with health records in a behavioral health organization including providers, administrators, IT staff, and office staff.

### Behavioral Health Learning Collaborative - September 1st

This event will provide an opportunity to hear from colleagues and experts on best practices, lessons learned, successes, and challenges around EHR adoption and upgrade, and health information exchange. Topics covered will include:

- Most widely used EHR systems in Oregon
- Considerations when adopting or upgrading an EHR
- Telehealth and how it integrates (or not) with an EHR
- Breakout discussions for like organizations

Questions and answers with Oregon experts

#### Event Details:

When: September 1, 2020 9:00 a.m. – 12:00 p.m.

Where: Virtually, via Zoom

Register: <https://www.eventbrite.com/e/behavioral-health-learning-collaborative-health-information-technology-tickets-114594800132>

Agenda: We want this event to best meet your needs and request that you complete a brief survey to help us shape the agenda. The survey link is <https://www.surveymonkey.com/r/T7TV8GV>.
