HIT "Commons" Business Plan - A public/private partnership to advance HIT in Oregon

A message from Greg Van Pelt, President, Oregon Health Leadership Council and Susan Otter, Director of Health Information Technology, Oregon Health Authority

In September 2017, the Oregon Health Leadership Council (OHLC) and the Oregon Health Authority (OHA) released the Health Information Technology (HIT) "Commons" Business Plan that will guide the creation of a public/private HIT governance partnership for Oregon. Leveraging current efforts, the HIT Commons is intended to help connect existing HIT systems, support statewide solutions, and to guide future investments that support advancing health IT across Oregon.

- View the [HIT Commons Business Plan Executive Summary](#).
- View the full [HIT Commons Business Plan](#)

This business plan is the result of collaborative work among OHLC, OHA and many stakeholders and has been accepted by OHA and the OHLC board. Staff have been directed to take the necessary steps to put a HIT Commons transition governance structure in place and begin this important work going forward.

Starting in 2018, the HIT Commons will assume governance of the Emergency Department Information Exchange (EDIE) along with other priority statewide HIT initiatives, with the express purpose of accelerating and advancing OHA's vision of an HIT optimized health care delivery system in Oregon.

EDIE and PreManage Learning Collaborative

October 5, 2017

8:00 a.m. to 4:00 p.m.

[Register today](#).

The Oregon Health Leadership Council is holding an EDIE (Emergency Department Information Exchange) and PreManage Learning Collaborative on October 5, 2017 in Portland. [Register](#) to

of Oregon's coordinated care organizations are already using PreManage to improve care coordination and there are new use cases that include long-term care, community paramedicine and crisis teams.

This is a great opportunity for those currently using EDIE or PreManage to interact with other subscribers of the programs. The event will also provide opportunity for professionals interested in getting started using PreManage to learn about what's happening in Oregon and get technical assistance and support.

When: Thursday, October 5 from 8:00 a.m. to 4:00 p.m.

Where: DoubleTree – Lloyd Center, 1000 NE Multnomah, Portland, OR 97232

Register: <https://www.eventbrite.com/e/ediepremanage-learning-collaborative-tickets-36227124304>

Health Information Exchange (HIE) Onboarding Program

The Office of Health IT launched a website for the planned Health Information Exchange (HIE) Onboarding Program. The HIE Onboarding Program will support the initial costs of connecting (onboarding) priority Medicaid providers to a community-based HIE that provides meaningful HIE opportunities and that plays a vital role for Medicaid in that community.

The website includes program information, resources and timelines for interested stakeholders. Visit the HIE Onboarding Program's [website](#) to learn more and [subscribe](#) to be notified via email when new program information becomes available.

Health IT public meetings

- September 20 - Provider Directory Advisory Committee
- October 4 - Common Credentialing Advisory Group
- October 12 - Health Information Technology Oversight Council

Get involved in Oregon's health information technology work. You can attend the Office of Health Information Technology's (IT) public meetings in person or online. Public meetings are listed on the Office of Health IT's homepage at www.HealthIT.Oregon.gov.
