

2025 SHARE Guidance Updates

Agenda

- Reporting changes
 - Attestation
 - CCO public posting
- Eligibility changes (projects and partners)
 - New domain: Health care access and quality
 - Exclusions
- Financial changes
 - Set-aside flexibility
 - Carry forward flexibility
- Other highlights
- Q&A

Reporting changes

Attestation

- By December 31, 2025, CCOs with a SHARE obligation will:
 - Attest to meeting SHARE requirements in rule and CCO contract
 - Provide information with attestation form about SHARE investments
- OHA will publicly post information from CCO attestation forms
- CCOs do not need to submit a spending plan to OHA for preapproval
 - SHARE Attestation CCO Contract Waiver Memo (10/1/25)
- 2025 SHARE Attestation Template

Public posting

- By June 30, 2026, CCOs with SHARE designations will:
 - Post information about 2025 SHARE investments to their website
 - At minimum, include:
 - CHP priority alignment with SHARE investments
 - SDOH-E partner selection process
 - SHARE investment descriptions (partner names, project activities, funding amounts)
 - Use either the optional <u>SHARE Public Posting Template</u> OR choose their own format

Eligibility changes

New domain: Health care access and quality

Definition: Improving the connection between people's access to and understanding of health services and their health. This includes providing timely, effective, safe and people-centered care that is equitable, efficient and responsive to individual needs and preferences.

This focus makes sure that services are based on the latest evidence; **reduce** barriers such as financial constraints, geographic limitations and workforce shortages including health care workforce education and training, and system level barriers; and ensure care is accessible to all populations.

SDOH-E partners

- Clinical or medical partners who are addressing health disparities by improving health care access and quality are also considered SDOH-E partners for SHARE.
- Some examples of partners addressing access/quality include:
 - Federally Qualified Health Centers
 - Community mental health providers
 - Nine Federally Recognized Tribes of Oregon and the Urban Indian Health Program
 - Local Public Health Authorities

Access domain: Examples

- Construct a clinical simulation lab at a community college to improve capacity to deliver allied health education and training
- Purchase a mobile unit and supplies for a mobile dental clinic that provides preventive care and oral health education
- Provide childcare and housing supports for health care providers to address workforce shortages
- Fund construction for residential treatment center
- Fund recruitment, training and credentialing for health care interpreters

Exclusions

SHARE dollars may not be spent on:

- Medicaid-covered benefits, including coverage under 1115 SUD and OHP waivers
- General CCO operations, administrative costs and activities that are required to perform under CCO contract or are necessary for CCO business operations and compliance with federal/state regulation
- Expenses that have been reported separately (for example, HRS or ILOS)
- CCO marketing expenses
- Political campaign contributions
- Advocacy specific to CCO operations and financing

Optional OHA feedback on SHARE eligibility

- CCO projects aren't subject to OHA approval prior to establishing partner agreements and disbursing funds.
- CCOs may share project ideas with OHA for feedback on eligibility any time prior to submitting their attestations. This step is optional.
- To receive feedback on SHARE project ideas, email project descriptions to <u>Transformation.Center@odhsoha.oregon.gov</u> and allow two weeks for response.

Financial changes

Set-aside

- CCOs may choose to leave a portion (up to 25%) of their current year designation not assigned to a SHARE partner. This amount is then set aside or reserved to allocate in a future year.
- If using set-aside flexibility CCOs must:
 - Identify and allocate amount to partner(s) within 3 years
 - Include the amount and % in attestation table
 - Report amount distributed to partners in Ex. L 6.71 spend down table

Carry forward

- The carry-forward flexibility allows a CCO to:
 - Spend more on SHARE than required for a given year and
 - Count the amount in excess of the current year's obligation toward a future year's SHARE requirement within three years
- If using the carry-forward flexibility CCOs must:
 - List the carry-forward amount on the attestation form in the year it is being applied
 - (Future) Report carry-forward amount in Ex. L 6.7

Other highlights

Partner agreement requirements

- OHA removed detailed requirements for partner agreements.
- CCOs must have written agreements with each SDOH-E partner that defines services provided and data collection methods.
- Reminder: CCOs do not need to submit partner agreements to OHA.

Housing priority – no changes

- SHARE investments must include spending toward statewide housing priority.
- Housing investments may include support for capital (for example, property purchase, renovation) and housing supports and services.
- Housing investments may not be spent on covered housing benefits for OHP members who qualify under Oregon's 1115 Medicaid and SUD waivers.

Financial reporting

- By June 30, CCO report on SHARE in Ex. L
 - **SHARE designation**, Ex. L, 6.7 annual report for CCO to calculate the current obligation and identify its SHARE designation based on prior year's financial results.
 - SHARE spend down report, Ex. L, 6.71 annual report of year-over-year spend down of total SHARE funds and detailed spending per partner

Examples

Where to find project examples:

- 2025 guidance, Appendix B, page 16 SHARE project examples
- 2024 spending plan summary report, Appendix C (linked from page 30) – Project summaries by CCO
- SHARE reports page Individual CCOs' 2024 spending plans
