
REALD Lesson's Learned for Phase 1 Organizations

Summary of Participant Feedback from
4/29/21 Session

1. Has your organization looked at the completeness of your REALD data?

2. Would you/your organization be interested in receiving a report from OHA evaluating the completeness of your submitted REALD data?

3. What report frequency would be useful?

- Monthly (3 responses)
- Monthly, if its eventually going to be required for all patients and not just COVID-19 tested.
- Not useful at all since the forms were already done so not needed.

4. Would you/your organization be interested in future REALD Lessons Learned meetings?

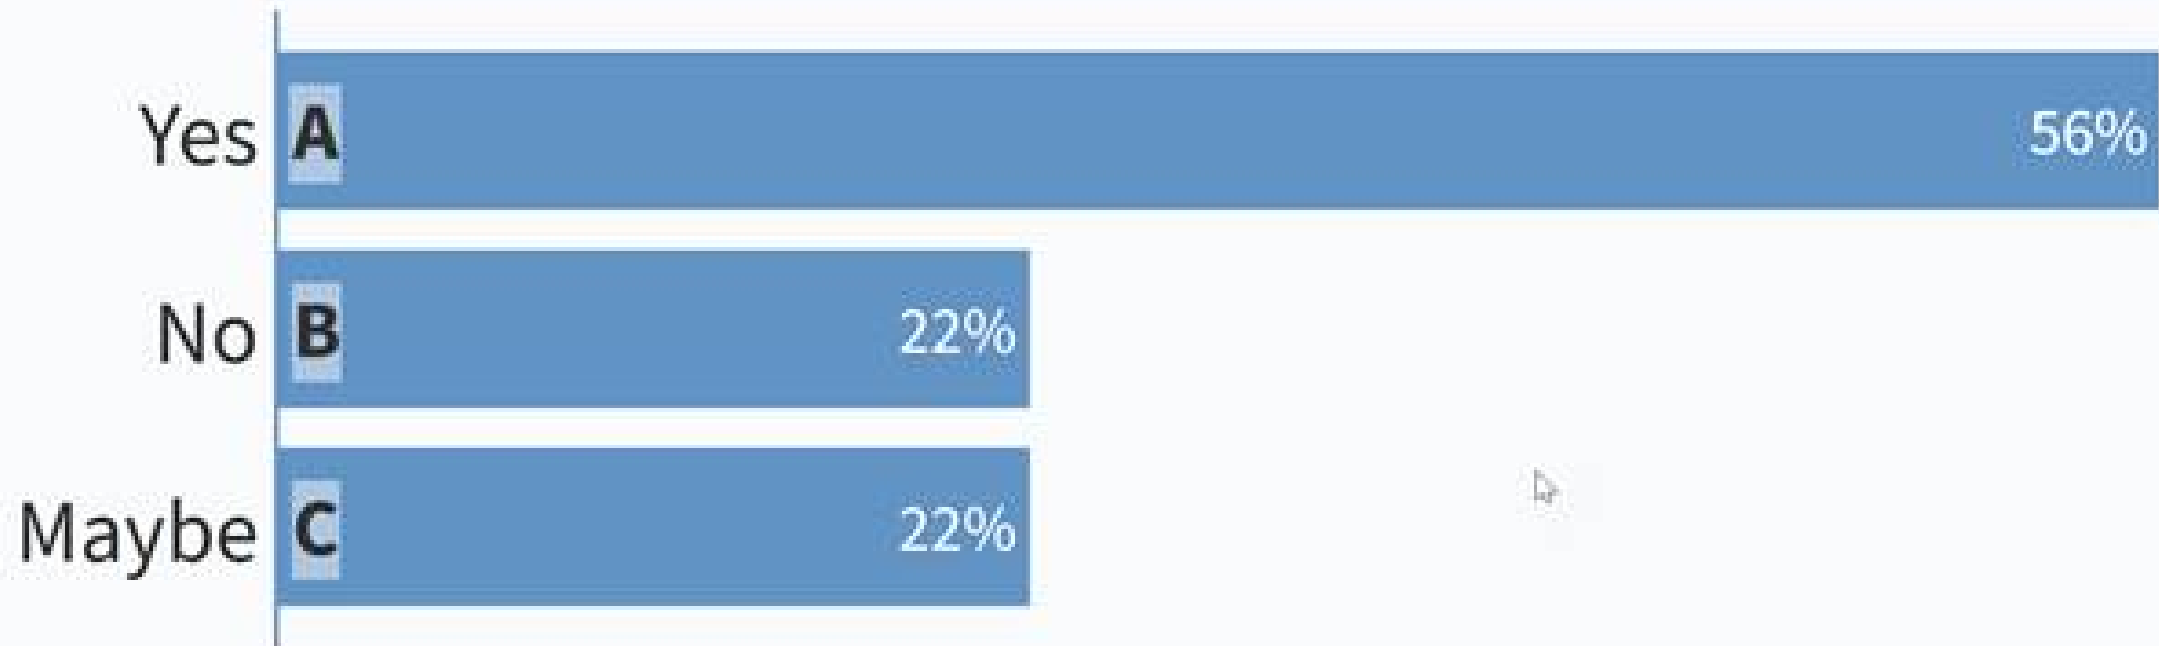

5. Would you/your organization be interested in future REALD office hours?

6. What topics would you/your organization want to hear about in future REALD meetings?

- What is happening by way of implementation because of the data
- How organizations have made this a positive experience for their patients
- More data collection success stories from FQHCs specifically
- What data has actually been gathered and what is it used for? Is it actually valuable and if so in what way? How long on average does it take for limited English proficiency patients to fill it out? How is the survey being received by patients? Are people willing or reluctant to fill it out?

7. Would your organization be willing/interested to participate in a REALD community of practice?

8. Would your organization be interested in networking opportunities with other organizations using the same EHR?
