Learning Collaborative feedback

What/Content	How/Logistics
<ul style="list-style-type: none">• Need to include other partners in LC, especially EL Hubs<ul style="list-style-type: none">• CCO-only sessions seem limiting• Really want to hear what other CCOs are doing/how they're doing it• SME/system partners presentations<ul style="list-style-type: none">• Mixed reviews• Need more “deployable” stuff back to internal (CCO) team	<ul style="list-style-type: none">• Possibly wrong CCO staff in LC• Large group format is not as helpful• Time for internal CCO teams is really helpful• Regional grouping is also helpful• Two-hours too long

Feedback about implementing the metric

- More time/support for all four metric components, especially *community engagement* and *action plans*
- More support for implementing metric to “fidelity”
- More support to engage CCO partners via data and asset map
- More/different EL Hub engagement
- Time for lessons learned and plan for doing things differently
- Time to discuss strategies for combining with other contractual requirements
- Understanding state-level strategies: what is state doing that CCOs can leverage in action plans?

OHA reflections & learnings

Novelty

New measurement & accountability, new work, new support needed

Capacity & expertise

Building out our early child social-emotional health expertise and capacity

Siloes & systems

Bridging state systems, agencies, divisions together takes time and different type work

Variation

Different CCO needs, approaches, staffing and partnerships need varied support

Additional discussion/reaction
