

Primary Care Strategy Committee Framework

Vision

Oregon envisions a sustainable and fully supported primary care system where every person has access to whole-person care that fosters well-being, strengthens communities, uplifts care teams, advances equity, and keeps health care affordable.

Workforce

Workforce ↔ Health Care Workforce Committee

- Education and training pathways
- Barriers to spending time on patient care, such as administrative demands
- Provider wellness and resiliency
- Structural drivers of burnout
- Provider diversity
- Misaligned incentives across payers

Delivery System

Delivery System

- Care models, such as Patient-Centered Primary Care Homes, team-based care, integrated behavioral health, and integrated oral health—not mutually exclusive
- Enabling systems, such as electronic health record, health information technology, health information exchange, community information exchange

Payment and Affordability

Payment and Affordability ↔ Committee on Health Care Affordability

- Measure and report primary care spend
- Payment models, such as value-based payment (including metrics)
- Payment amount
- Expenditure on other services, such as urgent care, specialty care, emergency department
