Patient-centered counseling virtual trainings (no-cost CMEs available*)

Who: Primary care, behavioral health and dental care providers; clinic staff; and traditional health workers serving Oregon Health Plan (Medicaid) members who want to learn and practice motivational interviewing and other patient-centered skills to support patients' health goals.

What: Dana Sturtevant, MS, RD, will lead full-day virtual trainings focused on motivational interviewing and other patient-centered counseling skills. The session will focus on increasing your confidence and skills to facilitate conversations with patients about sensitive topics. Examples will draw from tobacco use, diabetes management, adolescent immunization, well visits, and other priority topics related to CCO incentive metrics and COVID-19.

When: 9 a.m.–4 p.m. each day

- August 13
- August 24
- September 3
- September 14
- October 15
- October 27
- November 5
- November 23
- December 3
- December 15

Feedback from previous participants:

This was the BEST motivational interviewing course I've been to and most applicable to practice.

My interactions with patients have become more relaxed and I have felt more fulfilled in my job — knowing what I can and can't control has done wonders on my feelings of burnout!

I learned so many new strategies and feel empowered to be a better educator/motivator.

It provided tools I could put to immediate use.
