

REALD Learning Series

The Oregon Health Authority (OHA) Transformation Center and Division of Equity & Inclusion (DEI) are announcing a learning series focused on the use of REALD (Race, Ethnicity, Language and disability) for CCOs, clinics and other health care leaders. REALD is an effort to increase and standardize race, ethnicity, language and disability data collection across DHS and OHA. The learning series will cover an introduction to REALD, impact on health equity work, implementing new REALD data collection for providers, strategies for asking REALD questions, and using REALD data to advance health equity. Please see below for session dates and additional information:

An Introduction to REALD. 10/9, noon-1 p.m.

Implementing new REALD data collection for providers. 10/14, 2-3:30 p.m.

- This session built on the first webinar, walking through nuts and bolts of complying with [new provider requirements for reporting REAL-D information](#) when sending COVID reportable data to OHA. Hospitals, federally qualified health centers (FQHCs) and health systems are required to begin reporting October 1, 2020, and other provider reporting will be phased in. This session covered OHA's online COVID-19 reporting portal and other methods for submitting REALD data to OHA, including an update on OHA's exploration of the potential for electronic laboratory or case reporting.

Using REALD Data to Advance Health Equity. 11/20, noon-1 p.m.

- Once we have REALD data – what do we do with it? How do we use REALD data to identify and address health inequities? This session will provide guidance on how to prepare the 'raw' REALD data for analyses, and strategies for identifying language access needs, and inequities that may exist between groups as well as within groups.
