14:38:35 From Kalani Makanui (he/him) OHA : “Culturally and linguistically specific behavioral health services (CLSS)” means quality mental health, substance use, problem gambling, and other behavioral health prevention, treatment, and recovery supports and services that are designed specifically for a distinct minoritized cultural community, developed based on the languages used and cultural values of the distinct minoritized cultural community and designed to elevate their voices and experiences, and that have the aim of enhancing emotional safety, belonging, and a shared collective cultural experience for healing and recovery among the distinct cultural community served

14:39:23 From Mila Buckland : There are 5 parts.

14:39:28 From Kalani Makanui (he/him) OHA : Source: American Translator's Association - Transcreation basically means recreating a text for the target audience, in other words “translating” and “recreating” the text. Hence the term “transcreation”. Transcreation is used to make sure that the transcreated text is the same as the original text in every aspect: the message it conveys, the style, the images and emotions it evokes and its cultural background. You could say that transcreation is to translation what copywriting is to writing.

14:41:57 From Kalani Makanui (he/him) OHA : Aligning with and collaborating alongside other statewide efforts and programs (e.g., Oregon Council for Behavioral Health, Oregon Advocacy Commission, Behavioral Health Equity and Community Partnership) to ensure cohesive, community-rooted strategies.
