

Integrated Co-occurring Disorders (ICD) Core Trainings

Required trainings for staff in approved ICD programs

The Oregon Health Authority will develop and present all approved required trainings (some in collaboration with partners from across Oregon).

- Unless otherwise noted, OHA will accept only these trainings for credit towards the ICD Counselor Endorsement.
- OHA will release trainings as they come available throughout the first half of 2023.
- All trainings will be available on demand and offered live in the 2023 calendar year, and live teleconference in the first half of 2024.

For all staff (QMHA, QMHP, CADC, supervisors, peers, licensed medical providers):

Complete [ICD Program Fundamentals](#) (1.5 hours) within 12 months of being assigned to provide ICD services.

For counseling staff:

Complete [all ICD Core Trainings](#) (20 hours) within 12 months of being assigned to provide ICD services.

For peers and licensed medical providers:

All other ICD Core Trainings are optional. Only [ICD Program Fundamentals](#) is required.

ICD Core Trainings

Each training will address stigma, systemic power imbalances, lifespan development, and developmental dimensions as they connect with each area of content.

Fundamentals in Integrated Co-occurring Disorder Services

Link: www.acorncourses.org/courses/icd-cooccurring-disorders-fundamentals
