

**Oregon Performance Plan
Data Specification Sheet**

Oregon Performance Plan #49 (b) (i-ii)

Performance Plan Section: Secure Residential Treatment Facility.

Performance Plan Term: Civilly committed individuals in secure residential treatment facilities (“SRTFs”) whose clinical needs no longer necessitate placement in a secure facility shall be moved expeditiously to a community placement in the most integrated setting appropriate for that individual.

- b.** OHA will seek to reduce the length of stay of civilly committed individuals in secure residential treatment facilities, as follows:
 - i.** By the end of year one (June 30, 2017), there will be a 10% reduction from the baseline.
 - ii.** By the end of year two (June 30, 2018), there will be a 20% reduction from the baseline.

Definition: “Secure Residential Treatment Facility (SRTF)” means any Residential Treatment Facility, or portion thereof, that restricts a resident's exit from the facility or its grounds through the use of approved locking devices on resident exit doors, gates or other closures. Such locking devices will be installed in accordance with Building Code requirements. (OAR 309-035-0105 (46))

Data Source:

- Medicaid Management Information System (MMIS)

Description of Data:

- **Metrics:**
 - Number of individuals in SRTFs are pulled from MMIS using specific procedure codes and modifiers.
 - Number of discharges.
 - Number of days for those individuals who are discharged.

- **Numerator:** Baseline length of stay minus the length of stay for the new period.
- **Denominator:** Baseline length of stay.
- **Other / Description of Data Points:**
 - Length of stay is computed as total length of stay in days for all individuals discharged from SRTF divided by the number of individuals discharged from SRTF during the reporting period.
 - The data will be used to compute the length of stay for the reporting period and then show if the length of stay in Year One is at least 10% less than the baseline and the length of stay in Year Two is at least 20% less than the baseline.

Data issues/caveats that affect performance outcomes: N/A

Baseline: Calendar Year 2015	
Numerator	N/A
Denominator	N/A
Baseline Outcome	638 days
