

**Oregon Performance Plan  
Data Specification Sheet**

**Oregon Performance Plan #30**

**Performance Plan Section:** Acute Psychiatric Care

**Performance Plan Term:** OHA will continue to require that individuals receive a follow up visit with a community mental health provider within 7 days of discharge, and OHA will report this data.

**Definition:** An “Acute Care Psychiatric Facility” or “Acute Care Psychiatric Hospital” is a hospital that provides 24 hour-a-day psychiatric, multi-disciplinary, inpatient or residential stabilization, care and treatment, for adults ages 18 and older with severe psychiatric disabilities. (Oregon Performance Plan)

**Data Source:**

- Medicaid Management Information System (MMIS)

**Description of Data:**

- **Metrics:**
  - Number of discharges from acute care for individuals, 18 years and older, with SPMI who were hospitalized for the treatment of severe psychiatric disabilities.
  - Percent of discharges with a follow up visit within 7 days from discharge from acute psychiatric care hospital.
- **Numerator:** Number of discharges from acute care for individuals, 18 years and older, with SPMI with follow-up within 7 days.
- **Denominator:** Count of discharges from acute care for adults, 18 years and older, with an SPMI.

- **Other / Description of Data Points:**

- Discharges (client IDs and discharge dates) are used as unit of count.
- To identify acute inpatient discharges:
  - Identify all acute and non-acute inpatient stays.
  - Exclude non-acute inpatient stays.
  - Exclude: a) individuals who died, b) individuals re-admitted to Acute Care or the Oregon State Hospital within 7 days as the re-admission precludes the ability to receive follow-up, or c) individuals admitted to the Oregon State Hospital.

**Data issues/caveats that affect performance outcomes:**

- Excludes number of individuals readmitted for health issues.
- Continuous enrollment in Medicaid required.

<b>Baseline: Calendar Year 2015</b>	
Numerator	2,011
Denominator	2,534
Baseline Outcome	*79.36%

\*According to the 2015 Benchmarks and Thresholds Report by the National Center for Quality Assurance (NCQA), the Medicaid national 90<sup>th</sup> percentile was 70%. While Oregon’s numbers are slightly better than the 90<sup>th</sup> percentile rate, the state will continue to strive to improve this number.
