Data issues/caveats that affect performance outcomes: Baseline data is not yet available. An Intergovernmental Agreement to share LEDS data with OHA is underway, but not yet in place. Once the agreement is finalized, analysis will begin starting with data from July 1, 2016. The data will be provided in the quarterly reports beginning April 2017.

The previous plan to collect this data relied on MOTS which is self-reported. This new methodology will be more robust.
