Add any notes here to accompany the form submission:

These enrollments are not correct, we recently discovered the reports are missing individuals. We move from an SCHIP to and MCHIP 1/1/24 so the only people that should show up on the 21E report is the FCEP population which has approx 1400 age under 0 that do not show up on this report. we are working on a fix but I do not have a target date for completion.

Add any notes here to accompany the form submission:

We have recently discovered that these reports have not been pulling the enrollments correctly. For example we moved our SCHIP to an MCHIP program starting 1/1/24 so the 64.21 report should have an additional 131,033 individuals that moved off the CMS 21 report and moved to the 64.21 report but they have disappeared.
