Add any notes here to accompany the form submission:

These enrollments are not correct, we recently discovered the reports are missing individuals. We move from an SCHIP to and MCHIP 1/1/24 so the only people that should show up on the 21E report is the FCEP population which has approx 1400 age under 0 that do not show up on this report. we are working on a fix but I do not have a target date for completion.

Add any notes here to accompany the form submission:

We have recently discovered that these reports have not been pulling the enrollments correctly. For example we moved our SCHIP to an MCHIP program starting 1/1/24 so the 64.21 report should have an additional 131,033 individuals that moved off the CMS 21 report and moved to the 64.21 report but they have disappeared.

Form 64.21E | OR | 2024 | Quarter 3

CHIP Statistical Enrollment Data Reports

Form GRE | OR | 2024 | Quarter 3

Conception through age 18 years:

1. What is the number of enrollees by gender?

Totals:	588	57,052	57,640	355,608	0	413,248

Add any notes here to accompany the form submission:

We are having some problems with the SEDs reporting for the 64.21 and 21E populations. Systems unit is working on the fix and indicated that they will begin testing those fixes the first week of November. The 64 EC reports should be correct since those did not receive new program codes which is why the other two reports are affected. The CHIP populations receive new program codes starting 1/1/24.
