Section G – Other Policies and Procedures Differing from Approved Medicaid State Plan /Additional Information

OHA’s Public Health department administers the VFC program in Oregon. Most Oregon pharmacies have not enrolled in the Vaccine for Children (VFC) program for many reasons despite the best efforts of Oregon’s Public Health Division (PHD), the VFC program administrator, and Medicaid program. The lack of participation by pharmacy providers has created significant barriers to vaccine access for OHP-covered children and perpetuated health inequities for this vulnerable population. Oregon PHD and Medicaid continue to provide VFC enrollment outreach and education to pharmacies on an ongoing basis.

A large number of Oregonians, including privately insured vaccine-eligible children, have received their COVID-19 vaccines at pharmacies. As we enter into influenza season, and as younger children become eligible for COVID-19 vaccines under FDA EAU, Oregon requests CMS approval for non-VFC-enrolled pharmacies who are Medicaid-enrolled to provide COVID-19 and flu vaccinations to OHP-eligible children during the same visit. Non-VFC program-enrolled pharmacies must be able to provide and bill Medicaid for COVID-19 vaccine administration, influenza vaccine administration, and the influenza vaccine itself for OHP-eligible children. Oregon requires this approval to allow OHP-covered children to get COVID-19 and influenza vaccines as efficiently and conveniently as possible to help keep them healthy and prevent utilization of its already-overwhelmed hospital system this Fall/Winter. This request is exclusive to the influenza vaccines and not the entire VFC list of vaccines.

Administration fee and vaccine fee will be the same as it is for adult Flu vaccination and administration under current state plan rates.
