Subject: FFS reimbursement for self-administered COVID-19 test kits supplied by non-pharmacy providers, effective April 4, 2022

Effective immediately, the Oregon Health Authority (OHA) now allows the following providers to bill OHA for FDA-approved, self-collected COVID-19 home test kits supplied to FFS members on or after April 4, 2022:

- | | |
|--------------------------------------|--------------------------------------|
| ■ Clinic/group practices | ■ Indian Health Service facilities |
| ■ Critical access hospitals | ■ Opioid treatment programs |
| ■ Federally Qualified Health Centers | ■ Physicians and other practitioners |
| ■ Home health agencies | ■ Rural health clinics |
| ■ Hospital outpatient departments | ■ Skilled nursing facilities |
| ■ Independent laboratories | |

CCOs may choose to allow additional suppliers as described above. CCOs do not need to do this if pharmacies provide sufficient member access to COVID-19 home test kits.

OHA will cover up to 8 tests per month without prior authorization or a physician's order, at \$12 per test.

What should you do?

Providers: To bill OHA for FDA-approved or cleared over the counter test kits:

- Use HCPCS K1034 for [professional claims](#) and revenue code 0300 for [institutional claims](#).
- Bill one unit of K1034 for each test. If a package contains two tests, bill two units.
- Please adjust previously submitted claims as described in the [Claim Adjustment Handbook](#).

CCOs: Determine if you will allow additional providers to supply COVID-19 home test kits.

Also refer to the updated [Oregon Medicaid COVID-19 Provider Guide](#) for coverage and billing details.
