

## **Oregon Health Plan (OHP) pharmacies may now dispense generic alternatives for fee-for-service prescriptions of Invega®**

Effective immediately Oregon Health Authority (OHA) no longer requires pharmacies to dispense the brand formulation when filling fee-for-service prescriptions of Invega® for OHP patients.

- Pharmacies can dispense either the brand or generic formulation through Dec. 31, 2022, to use up the brand stock during the transition to generic alternatives.
- OHA will reimburse appropriately for the brand formulation through Dec. 31, 2022.

### **If your pharmacy needs to dispense brand Invega® on or after Jan. 1, 2023:**

- Request prior authorization from the Oregon Pharmacy Call Center (1-888-202-2126).
- When dispensing approved prescriptions, use the DAW-1 code to receive appropriate reimbursement for the brand formulation.
