Memorandum

To: Coordinated care organizations (CCOs)

From: David Inbody, CCO Operations director

Date: Oct. 1, 2026

Subject: Member Eligibility Groups Affected by HR1 Work or Activity Rules and Access to Related PERC Data

This memo provides information about Oregon Health Plan (OHP) members who may be at risk of losing eligibility due to new HR1 work or activity rules. It also offers instructions on how CCOs can access data related to affected member groups through PERC codes.

OHA is not requiring CCOs to do anything with this data. OHA is providing the information to CCOs so you can access and review your list of affected members.

Member Eligibility Groups to Review

The following PERC codes are for member categories subject to HR1 work or activity rules:

- MAGI Adult: M1, 41, M2, 42, M3, 43, M4, 44, M5, 45, M6, 46

Recommended Actions for CCOs

Review enrollment data for risk-exposed groups.

- Consider the member info available to you in determining an outreach strategy.
- You will also have some information that shows members are exempt. For example HNA status or if they are parents of children under 14.

Encourage members who may be potentially affected by HR1 work or activity rules to update their contacts and other information in ONE.

Notify OHA of data concerns or emerging trends.

Answer members’ work or activity rules questions for qualifying activities or exemptions to support their next renewal.
