Reentry FCAA Readiness Plan Template

Background Information

In alignment with Ex. B, Part 2, Sec. 18, para. C of the 2026 Coordinated Care Organzaiton (CCO) Medicaid Contract, the Reentry 2023 Federal Consolidated Appropriations Act (FCAA) Readiness Plan collects information on how the CCO will provide Reentry FCAA Services to eligible Oregon Health Plan (OHP) members beginning January of 2027. CCO readiness to provide these Reentry FCAA services will be assessed based on responses to components outlined in this document and the submission of supplemental documentation. After review, if necessary, the Oregon Health Authority (OHA) will reach out to CCOs to follow up with questions and/or collaborate on how best to support the CCO to successfully provide these services.

Readiness Plan Components

1) Attestation of compliance;
2) Reentry FCAA pre-service coordination;
3) Reentry FCAA service delivery;
4) Reentry FCAA service provider coordination;
5) Documentation (service delivery and reporting).

Please address your Readiness Plans for the Reentry FCAA program and submit this deliverable no later than **January 31, 2027**. (This due date is an extension of the original due date stated in the 2026 contract.) Submissions should be sent via the Contract Deliverables portal.

General Instructions

Ensure the attestation is completed by the/an authorized person filed with OHA.

Do not alter the formatting or file type of the Reentry FCAA Readiness Plan.

Do not embed documents in the Template. All supporting documents must be submitted as separate documents.

Only include documents that are relevant to the specific requirement. Excessive, irrelevant, or insufficiently/incorrectly identified documentation may hinder review and result in a request for additional or alternate documentation.

Indicate precisely which components, paragraphs, or pages of supplementary documentation directly support narrative responses or demonstrate compliance. Lack of precision in identifying these components (e.g., referencing "whole document") may hinder review and result in a request for additional or alternate documentation.

All questions and elements must be answered; if a particular section does not apply, please mark N/A (not applicable). CCOs may submit supplemental, relevant documentation to support narrative responses captured within this tool. Supplemental documentation is intended to provide additional clarity and must not replace complete responses provided within the tool.
