

Program of All-inclusive Care for the Elderly (PACE)

Introduction to PACE

Agenda

- What is PACE
- History of PACE
- Expansion of PACE in Oregon
- Procurement Intent and Process

PACE Model

- PACE is a Medicare and Medicaid program that offers an array of health and wellness services in a consolidated all-inclusive service model.
 - Nationally, PACE is operating in 32 states, serving approximately 60,000 participants.

History of PACE in Oregon

- PACE was developed by On Lok Senior Health Services in the early 1970s in the San Francisco area.
- Goal was to address the long-term care needs of older immigrants in San Francisco's Chinatown-North Beach neighborhood.
- On Lok services included day centers, in-home care, home-delivered meals, housing assistance and comprehensive medical care for older adults certified to be nursing home-eligible.
- Providence ElderPlace in Portland was one of the first pilot sites to expand PACE.
- Congress added PACE as a permanent Medicaid option for states in 1997.
- APD has and will continue to support current and future PACE organizations,

PACE Rates

- PACE organizations are capitated to provide all OHP and LTSS benefits
- Rates are set at to be no more than what it costs the state to serve similar consumers.
 - Rates are specific to the region or PACE organization
- To start, new PACE organizations' rates may be lower because they typically serve less impaired individuals
- Rates also vary by Medicare or Medicaid coverage:
 - Dual Eligible (Medicare and Medicaid)
 - Medicaid Only
 - Medicare Only

PACE Performance Payments

- PEP, and soon AllCare, receive performance payments when they reach specific outcome targets.
- Current PEP measures are:
 - Access to Pneumonia Immunizations
 - Access to Dementia Specific Medications
 - COVID-19 Vaccination Access
 - Increase in number of participants who enroll while living in an in-home setting
 - The percentage of consumers with whom their care team has had conversation about their Goals
- PEP may earn up to a 2.5% of the upper payment by meeting the measures across their entire enrolled population.
- They may receive an additional 2.5% if they meet the same targets for ALL race/ ethnicity categories.
- Measures are specific to the PACE organization and may be changed to address areas that need improvement or to address emerging issues.

Current PACE Providers in 2022

- **Providence ElderPlace** serves individuals in all of Multnomah and Clatsop counties and parts of Washington, Tillamook and Clackamas Counties.
 - PEP was allowed to expand without a RFP because there were not conflicting proposals.
- **AllCare PACE** serves individuals in parts of Jackson and Josephine counties, with the Health and Social Center located in Grants Pass.
 - AllCare was allowed to become a PACE program for the same reason

PACE Expansion

- APD fully supports the expansion of the PACE program and PACE providers statewide.
 - Ideally, APD would like to see PACE in all parts of the state.
- Recently, multiple organizations have approached APD to expand in the 1-5 corridor.
- APD determined it is in best interest of the entire APD system, especially consumers, to not have multiple PACE organizations serving the same areas:
 - “Competing” for limited LTSS providers
 - Confusion for local office staff
 - Financial viability for the new PACE organizations

PACE Eligibility

The PACE participant is:

- 55 years old or older
- Living in a PACE service area
- Able to reside safely in the community
- Assessed at Nursing Facility Level of Care (SPL 1-13)

PACE Services

PACE services include but are not limited to:

Long Term Care Services

Adult Day Services

In-Home Services

CBC facility care

Nursing Home Care

Palliative care

Medical equipment & supplies

Medical Care & Part D coverage

Medical Clinic services at the Health
& Social centers

Emergency medical services

Specialty medical care

Therapeutic services: OT, PT, speech, etc.

Mental health & behavioral services

Dental services

Social Work services

Therapeutic Recreational services

Transportation

RFP Process

- ODHS is following DAS procurement rules to ensure a fair and open procurement.
- We expect procurement to open Summer 2022.
- Proposal will require vendors to meet certain criteria;
 - Service equity
 - Expanded coverage areas (i.e., not just urban cities)
 - And be able to be operational within 365 days of the a
- Providers will be able to:
 - Select open service areas (i.e., zip codes)
 - Define services
- If multiple providers select the same service areas, the highest scored proposal will receive the contract.

POLICY AND PROGRAM
DEVELOPMENT

Long-term care means a range of services that help people who can no longer meet their own daily needs. Long-term care is generally not covered by traditional health insurance or Medicare. Here you will find an overview of services and some options to help pay for care.

Long-Term Care options may include:

Services in your home

Home-based services and supports help you stay independent and safe in your home. Services vary based on one's level and type of need. Services can be short-term, while recovering from an injury or illness, or long-term for many years, and can range from simple checks to more in-depth services. For more information about in-home care services, [contact your local Aging and Disability Resource Connection](#).

Employing a Homecare or Personal Support Worker

If you are an individual or family that employs or wants to find a homecare or personal support worker, [visit the Home Care Commission's Consumer/Employer information page](#).

Care facilities

Find [information about types of care facilities, licensed care services and other resources](#) to help you make an informed decision.

A guide to Oregon's Assisted Living and Residential Care Facilities (including Memory Care) and a Consumer Comparison Tool may be found on the [ADRC Assisted living and residential care facilities](#) website.

A guide to Oregon's Adult Foster Homes may be found on the [ADRC Foster Homes](#) website.
