Code	Description	Upper Payment Amount**	Service Criteria
H0031	MH Assessment, non-physician	\$95.43	Determination of a person's need for mental health services, based on the collection and evaluation of data obtained through interview and observation, of a person's mental history and presenting problem(s). The assessment concludes with documentation of a diagnosis and a written treatment plan supported by the assessment and interview data. If a person is not in need of mental health services, other disposition information, such as to whom the client was referred, shall be included in the client file.
H0032	Mental health service plan development by non-physician	\$95.43	Activities to develop, evaluate, or modify a client's mental health services plan. This would include the statement of treatment or service goals, of clinical interventions designed to achieve those goals, and an evaluation of progress toward those goals. This activity may be repeated periodically and the plan may be modified.
T1023 _T	Screening to determine the appropriateness of consideration of an individual for participation in a specified program, project or treatment protocol, per encounter	\$95.43	Screening or evaluation of the mental health service needs of clients for consideration of admission to inpatient hospital psychiatric programs, partial psychiatric hospital programs, residential treatment, or outpatient treatment services. This service differs from a mental health assessment in that the activity may require not only the evaluation of a client's treatment needs, but also an evaluation of available treatment options.
90801	Psychiatric diagnostic interview	\$140.94	The clinician interviews the patient in an initial diagnostic examination, which includes taking the patient's history and assessing his/her mental status, as well disposition. The psychiatrist may spend time communicating with family, friends, coworkers, or other sources as part of this examination and may even perform the diagnostic interview on the patient through other informative sources. Laboratory or other medical studies and their interpretation are also included.
90802	Interactive Psychiatric diagnostic interview	\$140.94	The clinician performs a psychiatric diagnostic examination on the patient using interactive methods of interviewing. This is most often the method used with individuals who are too young or incapable of developing expressive communication skills, or individuals who have lost the ability. This type of diagnostic interview is often done with children. Toys, physical aids, and non-verbal interaction and interpretation skills are employed to gain communication with a patient not

			capable of engaging with the clinician by using adult language skills
96101	Psychological Testing with interpretation and report, per hour	\$95.43	QMHP who is licensed Psychologist or a Psychology Intern supervised by a licensed Psychologist
H0004 _T	Behavioral health counseling/therapy, per 15 min	\$23.86	Individual counseling or therapy in the planned treatment of a client's problem(s) as identified by an assessment and listed in the treatment plan. The intended outcome is the management, reduction or resolution of the identified problems.
90804	Individual therapy, insight oriented, 20-30 min	\$70.47	The therapist provides individual psychotherapy in an office or outpatient facility using supportive interactions, suggestions, persuasion, reality discussions, re-education, behavior modification techniques, reassurance, and the occasional aid of medication. These interactions are done with the goal of gaining further insight and affecting behavior change or support through understanding. Individual psychotherapy is performed face to face with the patient for 20 – 30 minutes. Report 90804 if the patient received psychotherapy only and 90805 if medical evaluation and management services were also furnished.
90805	Individual therapy, insight oriented, with medication management, 20-30 min	\$70.47	The therapist provides individual psychotherapy in an office or outpatient facility using supportive interactions, suggestions, persuasion, reality discussions, re-education, behavior modification techniques, reassurance, and the occasional aid of medication. These interactions are done with the goal of gaining further insight and affecting behavior change or support through understanding. Individual psychotherapy is performed face to face with the patient for 20 – 30 minutes. Report 90804 if the patient received psychotherapy only and 90805 if medical evaluation and management services were also furnished.
90810	Individual therapy, interactive, 20-30 min	\$70.47	The therapist provides interactive psychiatric services in an office or outpatient facility for therapeutic purposes. The interactive method is most often used with individuals who are too young, or incapable, of developing expressive communications skills, or individuals who have lost the ability. This type of psychotherapy is often done with children. Toys, physical aids, and non-verbal play and interaction, including the use of interpreter skills, are employed to gain communication with a patient not capable of engaging with the clinician by using adult language

			incapable, of engaging with the clinician through expressive language communication skills, or individuals who have lost that ability. This type of psychotherapy is often done with children. Toys, physical aids, and non-verbal play and interaction, including the use of interpreter skills, are employed to help the patient and clinician work through the issues being treated. Reviewing patient records, including medication and lab tests, making observations and assessments and interpreting reactions and interactions within the group, arranging group and individual follow-up services, and record dictation are included.
90846 _T	Family Therapy without patient present	\$143.15	The therapist provides family psychotherapy in a setting where the care provider meets with the patient's family without the patient present. The family is part of the patient evaluation and treatment process. Family dynamics as they relate to the patient's mental status and behavior are a main focus of the sessions. Attention is also given to the impact the patient's condition has on the family, with therapy aimed at improving the interaction between the patient and family members.
90847	Family Therapy with patient present	\$143.15	The therapist provides family psychotherapy in a setting where the care provider meets with the patient's family jointly with the patient. The family is part of the patient evaluation and treatment process. Family dynamics as they relate to the patient's mental status and behavior are a main focus of the sessions. Attention is also given to the impact the patient's condition has on the family, with therapy aimed at improving the interaction between the patient and family members. Reviewing records, communicating with other providers, observing and interpreting patterns of behavior and communication between the patient and family members, and decision making regarding treatment, including medication management or any physical exam related to the medication, is included.
90849	Multi-family group therapy	\$47.73	The therapist provides multiple family group psychotherapy by meeting with several patients' families together. This is usually done in cases involving similar issues and often in settings of group homes, drug treatment facilities, or hospital rehabilitation centers. The session may focus on the issues of the patient's hospitalization or substance abuse problems. Attention is also give

H2014	Skills training and development, per 15 min	\$2.93	A program of rehabilitation designed to reduce or resolve identified barriers and improve social functioning in areas important to establishing and maintaining clients in the community; e.g., home, peer group, work or school. Activities are delivered to more than one client and are designed to promote skill development in areas such as decision-making, anger management and coping, community awareness and mobility, self-esteem and money management. Skills training reduces symptomatology and promotes community integration and job readiness.
H2023 _T	Supported employment, per 15 min	\$16.88	Services to promote rehabilitation and return to productive employment. Programs use a team approach to engage and retain clients in treatment and provide the supports necessary to ensure success at the workplace. Use of this code requires authorization from AMH.
H0036	Community psychiatric supportive treatment, face to face, per 15 min	\$8.44	Structured developmental or rehabilitative programs designed to improve or remediate a person's basic functioning in daily living and community living. Programs shall include a mixture of individual, group, and activity therapy components and shall include therapeutic treatment oriented toward development of a person's emotional and physical capability in areas of daily living, community integration, and interpersonal functioning.
H2033	Multi-systemic therapy for juveniles, per 15 min	\$23.86	Intensive, time-limited, home-based services delivered by appropriately licensed MST programs, consisting of individualized, comprehensive, integrated system interventions and empirically validated treatment approaches targeting multiple systems involved with a client, including peer, family, school, neighborhood, indigenous support network, and formal agency systems. MST is designed to promote behavior change in youth that have evidenced serious juvenile justice system involvement.
H0039 _T	Assertive community treatment, face to face, per 15 min	\$32.43	A multidisciplinary, team based approach, providing proactive, focused, sustained care and treatment targeted at a defined group of consumers. Services are aimed at maintaining the individual's contact with services, reducing the extent of hospital admissions and seeking improvement with social functioning and quality of life. Services are most appropriate for individuals with severe and persistent mental illness and the greatest level of functional

H2013	Psychiatric health facility service, per diem	\$269.90/ \$463.84 (Provider specific rate)	impairment. Use of this code requires authorization from AMH. Services provided in an intensively staffed 24-hour non-hospital facility under a physician approved treatment plan for which treatment includes an appropriate mix and intensity of assessment, medication management, individual and group therapies and skills development to reduce or eliminate the acute symptoms of the disorder and restore the client's ability to function in a home or the community to the best possible level.
T1016 _T	Case management, per 15 min	\$23.86	Services provided for coordinating the access to and provision of services from multiple agencies, establishing service linkages, advocating for treatment needs, and providing assistance in obtaining entitlements based on mental or emotional disability.
90882 _T	Environmental intervention with agencies, employers, or institutions	\$95.43	The clinician uses this code to report work done with agencies, employers, or institutions on a psychiatric patient's behalf in order to achieve environmental changes and interventions for managing the patient's medical condition.
90887 _T	Interpretation or explanation of results to family or other persons	\$95.43	The clinician interprets the results of a patient's psychiatric and medical examinations and procedures, as well as other pertinent recorded data, and spends time explaining the patient's condition to family members and other responsible parties involved with the patient's care and well-being. Advice is also given as to how family members can best assist the patient.
T1013	Sign language/oral interpreter service, per 15 min	\$8.21	Sign language/oral interpreter services necessary to ensure the provision of services for individuals with hearing impairments or in the primary language of non-English speaking individuals. Such interpreters shall be linguistically appropriate and be capable of communicating in English and the primary language of the individual and be able to translate clinical information effectively. Reimbursement for interpreter services is only allowed when provided in conjunction with another service such as assessment, individual/family therapy, or group therapy, etc. Whenever feasible,

			education and advocacy. Persons performing this activity have experience in treatment and recovery.
H0045	Respite care services, not in the home, per diem	***	Respite care services provided outside the home give assistance to clients in place of primary care givers on a temporary per diem basis so the patient may be maintained at the current level of care required when the primary care givers are temporarily absent.
S5151	Unskilled respite care, not hospice, per diem	***	Services provided in a properly licensed 24-hour facility by non-medical professionals within their scopes of licensure or certification. Services must be reasonably expected to improve or maintain the condition and functional level and prevent relapse or hospitalization. Services include assessment, supervision, structure and support, and case coordination.
S9125	Respite care services, in the home, per diem	***	Services provided in home to either a family or individual client, including services such as respite, aides, recreation, homemaker, behavior monitor, tutor or mentor, provided by agency staff under agency supervision. Agency supervision shall include training, supervision in adhering to the client treatment plan, and emergency back-up support. Travel time is factored into the rate and may not be billed under a separate code. Family support services are particularly appropriate when there are severe behavioral problems, which increase risk.
T1005	Respite care services, up to 15 min	***	Services provided in home or community to either a family or individual client, including services such as respite, aides, recreation, homemaker, behavior monitor, tutor or mentor, provided by agency staff under agency supervision. Agency supervision shall include training, supervision in adhering to the client treatment plan, and emergency back-up support. Travel time is factored into the rate and may not be billed under a separate code. Family support services are particularly appropriate when there are severe behavioral problems, which increase risk.
S9480	Intensive outpatient psychiatric services, per diem	***	Intensive Outpatient Psychiatric services focus on maintaining and improving functional abilities for the individual. Assessment and Evaluation and Crisis outpatient codes may be billed on the same day; however no other outpatient services may be billed on the same day. Facility-based codes may also be billed on the same day. Clients participate in activities a minimum of 4 hours

EXTENDED CARE SERVICES**

Use of the following codes requires authorization by AMH Extended Care Management Unit (ECMU)

****Non "HK" codes may not be billed on the same day****

H0031 HK	MH Assessment, non-physician	\$90.14	Determination of a person's need for mental health services, based on the collection and evaluation of data obtained through interview and observation, of a person's mental history and presenting problem(s). The assessment concludes with documentation of a diagnosis and a written treatment plan supported by the assessment and interview data. If a person is not in need of mental health services, other disposition information, such as to whom the client was referred, shall be included in the client file.
H0004 HK _T	Behavioral Health counseling/therapy, 15 min	\$22.47	Individual counseling or therapy in the planned treatment of a client's problem(s) as identified by an assessment and listed in the treatment plan. The intended outcome is the management, reduction or resolution of the identified problems.
90804 HK	Individual therapy, insight oriented, 20-30 min	\$66.53	The therapist provides individual psychotherapy in an office or outpatient facility using supportive interactions, suggestions, persuasion, reality discussions, re-education, behavior modification techniques, reassurance, and the occasional aid of medication. These interactions are done with the goal of gaining further insight and affecting behavior change or support through understanding. Individual psychotherapy is performed face to face with the patient for 20 – 30

	mental health condition, 45 minutes or more		community; e.g., home, work, school, peer group. Activities are delivered to more than one person and are designed to promote skill development in areas such as stress management, conflict resolution, coping skills, problem solving, money management, nutrition, and community mobility.
G0177 HK	Training and educational services related to the care and treatment of a person's disabling mental health condition, 45 minutes or more	\$47.78	Psychosocial skills development and rehabilitation services used to improve social functioning in areas important to maintaining or reestablishing residency in the community. Interventions are delivered on an individual basis and are individualized to meet specific goals and measurable objectives in the treatment plan. Interventions focus on developing and strengthening competencies in areas such as anger management, stress management, conflict resolution, money management, community mobility, symptom management and reduction.
H0036 HK	Community psychiatric supportive treatment, face to face, per 15 min	\$7.97	Structured developmental or rehabilitative programs designed to improve or remediate a person's basic functioning in daily living and community living. Programs shall include a mixture of individual, group, and activity therapy components and shall include therapeutic treatment oriented toward development of a person's emotional and physical capability in areas of daily living, community integration, and interpersonal functioning.
H2018 HK	Psychosocial Rehabilitation Services, per diem	\$99.77	Structured rehabilitative services and 24/7 crisis services delivered to individuals residing in specified residential treatment facilities. Service needs are identified in the assessment, prescribed in the individual treatment plan and include an appropriate mix and intensity of assessment, medication management, individual, group and activity therapy components. Services are oriented toward reducing symptoms, promoting community integration and transitioning the individual to a more integrated setting.
H2013 HK	Psychiatric health facility service, per diem	\$350.23	Services provided in an intensively staffed 24-hour non-hospital facility under a physician approved treatment plan to a client who is 18 years old, be currently approved for long term psychiatric care and referred by ECMU for which treatment includes an appropriate mix and intensity of assessment, medication management, individual and group therapies and skills development to reduce or eliminate the acute symptoms of the disorder and restore the client's ability to function in a home or the community to the best possible level. (PAITS program)

90882 T HK	Environmental intervention with agencies, employers, or institutions	\$90.14	The clinician uses this code to report work done with agencies, employers, or institutions on a psychiatric patient's behalf in order to achieve environmental changes and interventions for managing the patient's medical condition.
90887 T HK	Interpretation or explanation of results to family or other persons	\$90.14	The clinician interprets the results of a patient's psychiatric and medical examinations and procedures, as well as other pertinent recorded data, and spends time explaining the patient's condition to family members and other responsible parties involved with the patient's care and well-being. Advice is also given as to how family members can best assist the patient.
T1013 HK	Sign language/oral interpreter service, per 15 min	\$8.16	Sign language/oral interpreter services necessary to ensure the provision of services for individuals with hearing impairments or in the primary language of non-English speaking individuals. Such interpreters shall be linguistically appropriate and be capable of communicating in English and the primary language of the individual and be able to translate clinical information effectively. Reimbursement for interpreter services is only allowed when provided in conjunction with another service such as assessment, individual/family therapy, or group therapy, etc. Whenever feasible, individuals should receive services from staff, who are able to provide sign and/or oral interpretive services. In this case, interpreter services cannot be billed in addition to the therapeutic service.

			consultation provided within a structured residential setting to remediate significant impairments in functioning that are the result of a principal mental or emotional disorder.
H0018 TN	Behavioral health, short term residential (non-hospital residential treatment program) without room and board, per diem	\$126.13	Services provided by appropriately licensed 24-hour child and adolescent psychiatric residential treatment facilities for assessment, evaluation and stabilization of a child in a secure setting under the direction of a board certified child psychiatrist for up to 90 days.
H0019 TN	Behavioral health, long term residential (non-medical, non-acute care in a residential treatment program where stay is typically longer than 30 days) without room and board, per diem	\$126.13	Services provided by appropriately licensed 24-hour child and adolescent psychiatric residential treatment facilities. The program must provide a range of professional expertise and treatment services that ensures appropriate and active treatment of a current DSM Axis I diagnosis. Services must be expected to improve or maintain the child's functional level.
S5146	Foster Care, therapeutic, child, monthly rate at a minimum of 40 hours	\$2538.63	Rehabilitation services provided in the child's foster home. Delivered on an individualized basis and designed to promote skill development. This service requires the use of treatment foster care in coordination with other mental health interventions to reduce symptoms associated with the child's mental or emotional disorder and to provide a structured, therapeutic environment. The service is intended to reduce the need for future services, increase the child's potential to remain in the community, restore the child's best possible functional level, and to allow the child to be maintained in the least restrictive setting.
T2010	Preadmission screening and resident review (PASSR) Level I identification screening, per screen	\$176.86	The screening of clients in nursing facilities (NF) to determine if a resident requires a PASRR Level II mental health evaluation. This review involves an analysis of data regarding symptoms of mental illness and results in a decision to deny or perform a PASRR Level II mental health Evaluation. Notification of this decision will be sent to the NF and AMH. Reviews may be repeated one time within 12 months to adjust treatment recommendations or arrange for mental health treatment.
