(A) Preparation of the written initial evaluation or initial assessment report for a suspected disability per the referral process for determining IDEA eligibility, including obtaining and interpreting medical information for the part of the evaluation or assessment performed by the mental health care practitioner within the scope of practice to establish necessary and appropriate mental health services on the Medicaid-eligible student's IEP or IFSP or to determine whether or not necessary and appropriate mental health services will continue to be specified on the Medicaid-eligible student's IEP or IFSP under IDEA;

(B) Care coordination and integrating services within the scope of practice relative to the Medicaid-eligible student receiving mental health services as specified on the IEP or IFSP;

(C) Direct individual therapy services provided within the scope of practice under state law and covered under sections (1) and (2) of this rule to a Medicaid-eligible student by or under the supervision and direction of a psychologist, a psychiatrist, or mental health nurse practitioner, or a Licensed Clinical Social Worker qualified and licensed to deliver the service pursuant to the Medicaid-eligible student's IEP or IFSP.

(12) The Authority may reimburse telehealth, tele-electronic/telephonic School-Based Health Services (SBHS) provided to the same extent the services would be covered if they were provided in person and billed to Medicaid using appropriate SBHS procedure codes and modifiers. All SBHS telehealth services billed to Medicaid shall:

(a) Be provided by a licensed practitioner/clinician employed by or contracted by an Oregon public school district or Education Service District, enrolled with Oregon Health Authority (OHA) as a "school medical (SM)" provider with

authority to provide SBHS to Oregon Medicaid beneficiaries;

(b) Be performed by or under a supervising licensed practitioner/clinician within the scope of practice governed by their licensing board, who meet the federal requirements as described in medically qualified staff in OAR 410-133-0120, and who hold a current and valid license without restriction from a state licensing board where the provider is located;

(c) Use synchronous audio and visual interactive technologies, including interactive audio/telephonic services provided to a child/student in a geographical area where synchronous audio and video is not available or consent for audio/video is refused for services provided to a child/student;

(d) Include, when applicable, electronic or telephonic communications such as telephone conversation, video conference, or an internet relay chat session for care coordination defined in OAR 410-133-0040(16);

(e) Assist the licensed practitioner/clinician with care coordination and oversight of a Medicaid eligible child/student's covered health related services provided in support of a child/student's education program required by the Individuals with Disabilities Education Act (IDEA);

(f) Be compliant with applicable privacy rules and security protections for the child/student in connection with the telehealth communication and confidentiality related to records required by HIPAA and FERPA;

(g) Ensure the telehealth communication obtained, used and maintained is compliant with privacy and security standards in HIPAA and the Authority's Privacy and Confidentiality Rules set forth in OAR 943 division 14;

(h) Ensure policies and procedures are in place to prevent a breach in privacy or exposure of protected health information or records (whether oral or recorded in any form or medium) to unauthorized individuals.

(13) Providers billing Medicaid for SBHS health related services via telehealth must:

(a) Align services provided within a licensed practitioner/clinician scope of practice governed by their licensing board;

(b) Obtain the child's/student's parent or guardian's written or verbal consent to receive the services via telehealth technologies, prior to the delivery of health-related services to an eligible child/student with disabilities using a telehealth modality. Verbal consent must be documented/noted in the child's plan of care by the practitioner. Consent must be obtained and documented annually or with change in services on the child/students plan of care;

(c) Model SOAP charting or equivalent for covered health related services required by the Individuals with Disabilities Education Act (IDEA) in compliance with Documentation and Recordkeeping Requirements OAR 410-133-0320;

(d) Describe services provided as telehealth synchronous audio/visual interactive equivalent to face to face; or electronic/telephonic interactive communication described as telephone conversation, video conference, or internet relay chat requiring decision making for coordinating care;

(e) Bill Medicaid using the most appropriate Current Procedural Terminology (CPT) or Healthcare Common Procedure Coding System (HCPCS) codes and modifiers for SBHS considered as an OHP covered service. A two-digit modifier assigned to telehealth is required for billing SBHS telehealth services using audio and video interactive technologies;

(f) For services covered using synchronous audio and video with modifiers GT, the Division will cover the same services provided by synchronous audio (e.g. telephone), when billed with the same codes but without modifier GT when provision of the same service via synchronous audio and video is not available or feasible, when the patient declines to enable video, or necessary consents cannot reasonably be obtained with appropriate documentation in the child/student's plan of care;

(g) Maintain clinical documentation and financial records related to telehealth services as required in OAR 410-120-1360 and these SBHS Rules.

(14) In the event a National or declared state of emergency, crisis, pandemic or other disaster occurs that results in prolonged school closure, the Authority may adopt flexibilities to remove barriers in support of medically necessary service delivery:

(a) The state recognizes that exceptional circumstances may affect how all educational and related services and supports are provided during a declared state of emergency and will follow guidance from the US Department of Health and Human Services (HHS), Office for Civil Rights (OCR), Office of Special Education Programs (OSEP) in the Department of Education, and Office of Special Education and Rehabilitative Services (OSERS) for flexibility where possible and may allow enforcement discretion related to encryption requirements;

- (b) Oregon's school program must ensure that, to the greatest extent possible, students with a disability are provided the special education and related services identified in a student's IEP/IFSP required by IDEA, or a plan developed under Section 504 of the Rehabilitation Act of 1973;
- (c) Federal disability law guaranteed by the Rehabilitation Act of 1973 and the Individuals with Disabilities Education Act (IDEA) allow for flexibility in the determination of how a Free Appropriate Public Education (FAPE) is to be provided during a public health emergency or any declared state of emergency consistent with the need to protect the health and safety of students with disabilities and those individuals providing special education and related services to students;
- (d) During an emergency declaration, the Authority may reimburse any necessary and appropriate physical, mental, behavioral and oral health service delivered using a telehealth platform when the telehealth delivery reasonably approximates in person services to maximize access to services and reduce barriers in the delivery of these services provided to eligible children included in a child's Individualized Education Program (IEP) or Individualized family Service Plan (IFSP) required by the Individuals with Disabilities Education Act (IDEA), a Section 504 plan pursuant to Section 504 of the Rehabilitation Act, or other school services plan. Other types of telecommunications are not covered, without necessary and appropriate decision making for an eligible child's /student's plan of care.
- (15) Medicaid reimbursed transportation:
- (a) Transportation to a covered health service as documented in the child's IEP/IFSP and defined in these rules (see 410-133-0245, Cost Determination and Payment);
- (b) Ongoing transportation specified as a related service on the Medicaid-eligible student's IEP or IFSP may be claimed as a Medicaid service on the days a Medicaid-eligible student receives a covered health service that is also specified on the IEP or IFSP and the transportation is supported by a transportation vehicle trip log;
- (c) The Authority may only reimburse for transportation as a related service to and from a Medicaid-covered service for a Medicaid-eligible student when the transportation is supported by a transportation vehicle trip log; and the student receives a Medicaid-covered health service other than transportation on that day when either of the following situations exist:
- (A) The Medicaid-eligible student requires specialized transportation adapted to serve the needs of the disabled student; there is documentation to support specialized transportation is "necessary and appropriate;" and transportation is listed as a related service on the student's IEP or IFSP; or
- (B) The Medicaid-eligible student has a medical need for transportation that is documented in the IEP or IFSP and resides in an area that does not have regular school bus transportation such as those areas in close proximity to a school.
- (d) If a Medicaid-eligible student is able to ride on a regular school bus, but requires the assistance of a delegated health care aide trained by an RN to provide a delegated nursing task specific to the student and cannot be transported safely without the delegated health care aide, the service provided by the delegated healthcare aide is reimbursed under the delegated healthcare code. See the Standards for Community-Based Care Registered Nurse Delegation of a nursing care task as outlined in the Nurse Practice Act, OAR chapter 851 division 47;
- (e) If a Medicaid-eligible student requires the assistance of a delegated health care aide and transportation adapted to serve the needs of the disabled student, both the necessary and appropriate transportation and the service provided by the delegated healthcare aide may be reimbursed when both are specified on the Medicaid-eligible student's current IEP or IFSP;
- (f) If an education agency provides special transportation to a Medicaid-eligible student to a covered service outside the district or the Medicaid-eligible student's resident school and the student cannot be transported safely without a transportation aide as specified on the IEP or IFSP, the transportation is billable. However, a transportation aide who is not a delegated healthcare aide trained by an RN cannot be billed as a separate cost because the cost of the transportation aide is included in the cost of the transportation;
- (g) Transportation is not reimbursable by the Division when provided by the parent or relative of the child;
- (h) Transportation to an "evaluation" service is covered if:
- (A) Medically necessary transportation is listed and included in the Medicaid-eligible student's current IEP or IFSP and

the evaluation is to establish, re-establish, or terminate a SBHS covered service under IDEA;

(B) The evaluation is a SBHS covered health service;

(C) The medical provider conducting the evaluation, if not employed or contracted by the school medical provider, is an enrolled provider with the Division and meets applicable medical licensing standards necessary to conduct the evaluation.

(16) Medicaid may reimburse for contracted consultation health services for furnishing consultations regarding a Medicaid-eligible student's covered health service specified on the IEP or IFSP for an evaluation or assessment to establish, re-establish, or terminate a covered SBHS on an IEP or IFSP. Contracted consultation services must be provided by a licensed medical professional other than school medical provider staff:

(a) This service may be on a contracted basis for a number of students;

(b) Allowable services must be furnished through a personal service contract between the school medical provider and the licensed health care practitioner;

(c) This service would only be an SBHS covered health service by the school medical provider when the licensed health care practitioner did not bill Medicaid directly under other programs for the same services.

(17) Reimbursed coordinated care performed by medically qualified staff as described in OAR 410-133-0120 directly related to health services required by a Medicaid-eligible student's physical or mental condition as described in the IEP or IFSP must be one of the following:

(a) Managing integration of those Medicaid covered health services for treatment provided in the education setting;

(b) The portion of a conference between interested parties and medically-qualified staff for developing, reviewing, or revising a Medicaid-covered health service or therapy treatment plan for services provided pursuant to a Medicaid-eligible student's IEP or IFSP or to establish, re-establish, or terminate a covered health service under IDEA for eligibility purposes;

(c) Consultation from medically qualified staff providing technical assistance to or conferring with special education providers, physicians, or families to assist them in providing covered health services to Medicaid-eligible students for treatment provided in the educational setting related to specific health services and the goals and objectives in the student's IEP or IFSP. Consultation services must be completed by a licensed health care practitioner within the scope of practice under their licensure.

STATUTES/OTHER IMPLEMENTED: ORS 413.042, 414.065

AMEND: 410-133-0220

REPEAL: Temporary 410-133-0220 from DMAP 19-2020

RULE TITLE: Billing and Payment

NOTICE FILED DATE: 08/03/2020

RULE SUMMARY: The Oregon Health Authority (OHA) is moving forward to revise and adopt permanently as amended Temporary (T) Oregon Administrative Rules (OAR) OAR 410-133-0040(T), 410-133-0080(T), and adopt permanently 410-133-0220(T) and 410-133-0245(T). These rules are currently in effect under a temporary filing, in effect April 4, 2020 thru October 5, 2020. OHA is now making these rule changes permanent by including coverage of telehealth for health-related services provided to children required by the IDEA, during a state of emergency and beyond, by expanding coverage to permanently maximize access and reduce barriers allowing the following types of telehealth: • Telehealth using synchronous audio and visual interactive technologies; • Telehealth audio only interactive audio/telephonic services provided to a child/student in a geographical area where synchronous audio and video is not available or consent for audio/video is refused for services provided to a child/student; and • Electronic or telephonic communications such as telephone conversation, video conference, or an internet relay chat session for care coordination defined in OAR 410-133-0040(16).

RULE TEXT:

(1) The School Medical (SM) provider must bill the Oregon Health Authority (Authority), also termed Department, in accordance with OAR 410-120-0035; and must bill at a cost rate no greater than the education agency's cost rate for the applicable discipline reviewed and accepted by the Authority based on the cost determination process described in OAR 410-133-0245.

(2) Services must be billed on a CMS-1500 or by electronic media claims (EMC) submission using only those procedure codes and modifiers specified for the School-Based Health Services (SBHS) program. If the SM provider submits their claims electronically, the SM provider must become a trading partner with the Authority and comply with the requirements for Electronic Data Interchange (EDI) pursuant to Chapter 943 Division 120 rules and Chapter 410 Division 120 rules.

(3) The Authority will accept a claim up to 12 months from the date of service. See Department Provider Rules 943-120-0340 Claim and PHP Encounter Submission and General Rules 410-120-1300 Timely Submission of Claims.

(4) Third party liability. In general, the Medicaid program is the payor of last resort and a provider is required to bill other resources before submitting the claim to Medicaid. This requirement means that other payment sources, including other federal or state funding sources, must be used first before the Authority can be billed for covered health services. However, the following exceptions apply to the requirement to pursue third party resources:

(a) For health services provided under the Individuals with Disabilities Education Act (IDEA), Medicaid pays before Oregon Department of Education (ODE) or the Educational Agency (EA), to the extent the health service is a covered service provided to a Medicaid-eligible student documented as required under these rules, and subject to the applicable reimbursement rate;

(b) If School-Based Health Services (SBHS) are provided under Title V of the Social Security Act (Maternal and Child Health Services Block Grant), Medicaid-covered Health Services provided by a Title V grantee are paid by Medicaid before the Title V funds;

(c) The Centers for Medicare and Medicaid Services (CMS) recognize that while schools are legally liable to provide IDEA-related health services at no cost to the eligible students, Medicaid reimbursement is available for these services because section 1903(c) of the ACT requires Medicaid to be primary to the U.S. Department of Education for payment of the health-related services provided under IDEA.

RULE TEXT:

(1) The Oregon Health Authority (Authority) will make rate determinations for the purposes of payment under OAR 410-133-0220 based on annual cost determinations submitted by local education agencies (EA's).

(2) Cost determinations will:

(a) Be based on the EA's prior year's annual audited costs;

(b) Establish an hourly and 15-minute increment rate for the current year billed;

(c) Use the current year Oregon Department of Education (ODE)-approved indirect rate for the EA;

(3) An EA shall not bill for more than its prior year's annual audited cost incurred during the previous year. There will be no required annual cost settlement for each EA, although the Authority may conduct reviews or audits of cost reports.

(4) Data for cost determinations shall be submitted in a format prescribed by the Authority and in accordance with Oregon's State Plan approved by the Centers for Medicare and Medicaid Services (CMS).

(5) Cost determinations shall be completed for each service discipline eligible for Medicaid billing. If an EA does not receive a confirmation from the Authority indicating costs have been received and accepted, the EA may not submit payment requests for those services. Costs for services include: Nursing, Occupational Therapy, Physical Therapy, Speech Language Pathology, Audiology, Psychological, Delegated Health Care, and Clinical Social Work. The Authority's acceptance of the cost calculations submitted by the SBHS provider for rates per discipline based upon the School-Based Health Services' (SBHS) provider's previous year's audited costs and, if applicable, the current years indirect rates does not imply or validate the accuracy of the data submitted.

(6) Transportation costs for Medicaid-eligible children will be reimbursed when the Individualized Education Program (IEP) or Individualized Family Service Plan (IFSP) for the Medicaid eligible child documents the need for necessary and appropriate transportation. Transportation cost reimbursement rates are based on the EA's prior year's audited costs for special education transportation and will be submitted in a format prescribed by the Department and in accordance to Oregon's State Plan approved by the Centers for Medicare and Medicaid Services (CMS).

(7) Costs for telehealth technologies used to provide SBHS health related services are included in the cost for each service discipline and are not billed separately.
