AM END: 410-200-0315
REPEAL:Temporary 410-200-0315 from DMAP 1-2019
RULE TITLE: Standards and Determining Income Eligibility
NOTICE FILED DATE: 07/08/2019
RULE SUM M ARY: Every year the Federal Poverty Levels (FPL) are adjusted and published to the Federal Register. Several OCCS medical programs' eligibility thresholds and income disregards are based on percentages of the FPL; OAR must be updated to reflect these new values.

RULE TEXT:
(1) M AGI-based income not specifically excluded is countable, and its value is used in determining the eligibility and benefit level of an applicant or beneficiary.
(2) M AGI-based income is considered available on the date it is received or the date a member of the household group has a legal right to the payment and the legal ability to make it available, whichever is earlier, except as follows:
(a) Income usually paid monthly or on some other regular payment schedule is considered available on the regular payment date if the date of payment is changed because of a holiday or weekend;
(b) Income withheld or diverted at the request of an individual is considered available on the date the income would have been paid without the withholding or diversion;
(c) An advance or draw of earned income is considered available on the date it is received.
(3) In determining financial eligibility for each applicant, the sum of the budget month M AGI-based income of all household group members is combined and compared to the applicable income standard for the family size. If the income is at or below the M AGI income standard, the individual meets the financial eligibility requirements. Except as provided in section (4) (a), if income exceeds the M AGI income standard, the individual is ineligible.
(4) This section applies to M AGI M edicaid/CHIP programs:
(a) If an individual is ineligible for M AGI M edicaid based solely on income and would otherw ise be eligible for M AGI CHIP or be referred to the Exchange for APTC, a disregard equivalent to five percentage points of the federal poverty level for the applicable family size shall be applied to the household group's income. If the resulting amount is below the income standard for the applicable program and family size, the individual meets the financial eligibility requirements in
the following programs:
(A) The M AGI Parent or Other Caretaker Relative Program;
(B) The M AGI Child Program;
(C) The M A GI Adult Program; and
(D) The M AGI Pregnant W oman Program;
(b) If an individual is ineligible for M AGI CHIP based solely on income and would otherw ise be referred to the Exchange for APTC, a disregard equivalent to five percentage points of the federal poverty level for the applicable family size shall be applied to the household group's income. If the resulting amount is below the income standard for the applicable program and family size, the individual meets the financial eligibility requirements in the M AGI CHIP;
(c) The M AGI income standard for the MAGI Parent or Other Caretaker-Relative program is set as follows: See attached table.
(d) Effective M arch 1, 2019, the M AGI income standard for the M AGI Child Program and the M AGI Adult Program is set at 133 percent of the FPL as follows. If an individual's household group income exceeds the income standard for their family size, the appropriate disregard for their family size described in section (4) (a) shall be applied: See attached table.
(e) Effective M arch 1, 2019, the M AGI income standard for the M AGI Pregnant W oman Program and for M AGI Child Program recipients under age one is set at 185 percent FPL. If an individual's household group income exceeds the income standard for their family size, the appropriate disregard for their family size described in section (4) (a) shall be applied: See attached table.
(f) Effective M arch 1, 2019, the M AGI income standard for the M AGI CHIP program is set through 300 percent of FPL as follows. If a child's household group income exceeds the income standard for their family size, and the child would be otherw ise ineligible for M A GI CHIP , the appropriate disregard for their family size described in section (5) (a) (B) shall be applied: See attached table.
(g) W hen the Department makes an ELE determination and the child meets all M AGI CHIP or M AGI Child Program nonfinancial eligibility requirements, the household size determined by the Department is used to determine eligibility regardless of the family size. The countable income of the household is determined by the ELA.A child is deemed eligible for M AGI CHIP or M A GI Child Program as follows:
(A) Effective M arch 1, 2019, if the M AGI-based income of the household group is below 163 percent of the 2019 federal poverty level as listed below, the Department deems the child eligible for the M AGI Child Program: See attached table.
(B) If the M AGI-based income of the household group is at or above 163 percent of the FPL through 300 percent of the FPL as listed in section (4) (f) of this rule, the Agency deems the child eligible for M AGI CHIP.
