

COVID-19 Home Tests for OHP Members

OHP covers COVID-19 at-home tests.

Starting November 8, 2021, the Oregon Health Plan (OHP) covers COVID-19 at-home tests for OHP and CAWEM members.

- OHP and CAWEM members who have signs of COVID-19 or have had close contact with someone with COVID-19 can get COVID-19 at-home tests.
- The COVID-19 at-home tests do not replace COVID-19 testing done in clinics and labs.

The Oregon Health Authority strongly suggests members talk to their doctor if they have signs of COVID-19 or may have been exposed.

OHP and CAWEM members can get up to 4 COVID-19 at-home tests per month without a doctor's order.

To get more than four tests in a month, OHP and CAWEM members would need to get a doctor's order.

- Please contact your primary care provider (PCP) if you need more than four at-home tests per month.

All types of COVID-19 at-home tests are covered.

OHP covers all COVID-19 at-home tests that are approved by the U.S. Food and Drug Administration (FDA), including COVID-19 home tests that require an internet connection or smartphone to read the results.

Pick up COVID-19 at-home tests at a pharmacy or retail store.

Members should bring the COVID-19 at-home test to the pharmacy counter to check out and let the pharmacy know they are an OHP or CAWEM member. Members will not be charged for COVID-19 at-home tests.

- Due to limited supplies, not all pharmacies or retail stores may have COVID-19 at-home tests. Members may want to call the pharmacy or retail store to ask if COVID-19 home tests are in stock.
- OHP covers at-home tests picked up at the pharmacy counter, not tests bought online.
