

Change to sterilization consent requirements effective 1/1/2019

Starting January 1, 2019, the Oregon Health Authority (OHA) will no longer require a sterilization consent form for procedures that are unrelated to voluntary sterilization but would result in sterilization (such as ovarian cancer surgery). This means:

- Providers will no longer need to collect a consent form for procedures that cause sterilization if the purpose of the procedure is something other than sterilization.
- OHA will still require consent when the purpose of the procedure is sterilization.

Starting January 1, some claims will process without suspending for a consent form. However, some claims will continue to suspend for additional information, such as chart notes. In these cases, providers will need to submit documentation that shows:

- The patient's reproductive capacity remained intact after the procedure, or
- The patient was sterile before the procedure, or
- The purpose of the procedure was to treat illness/injury and not to cause sterilization.

To learn more about OHA's sterilization consent requirement, see Oregon Administrative Rule [410-130-0580](#).

The following ICD procedure codes will be pulled only if primary Dx is Z30.2

0UB70ZZ - Excision of Bilateral Fallopian Tubes, Open Approach
0UB74ZZ - Excision of Bilateral Fallopian Tubes, Perc Endo Approach
0UT50ZZ - Resection of Right Fallopian Tube, Open Approach
0UT54ZZ - Resection of Right Fallopian Tube, Perc Endo Approach
0UT60ZZ - Resection of Left Fallopian Tube, Open Approach
0UT64ZZ - Resection of Left Fallopian Tube, Perc Endo Approach
0UT70ZZ - Resection of Bilateral Fallopian Tubes, Open Approach
0UT74ZZ - Resection of Bilateral Fallopian Tubes, Perc Endo Approach

Please provide feedback on the following ICD procedure codes. These codes would only be pulled if the primary Dx is Z30.2. This will be future quarters 3rd quarter 2019 pull.

0UB50ZZ - Excision of Right Fallopian Tube, Open Approach
0UB60ZZ - Excision of Left Fallopian Tube, Open Approach
0UB04ZZ - Excision of Right Ovary, Percutaneous Endoscopic Approach
0UB14ZZ - Excision of Left Ovary, Percutaneous Endoscopic Approach
0UB24ZZ - Excision of Bilateral Ovaries, Percutaneous Endoscopic Approach
0UB54ZZ - Excision of Right Fallopian Tube, Percutaneous Endoscopic Approach
0UB64ZZ - Excision of Left Fallopian Tube, Percutaneous Endoscopic Approach
0UT04ZZ - Resection of Right Ovary, Percutaneous Endoscopic Approach
0UT14ZZ - Resection of Left Ovary, Percutaneous Endoscopic Approach
0UT24ZZ - Resection of Bilateral Ovaries, Percutaneous Endoscopic Approach
