<b>Total number of measures for which hospital will receive credit in Year 2 of the program:</b>										<b>7</b>
<b>Does hospital qualify for the floor payment (by achieving 75 percent of the measures for which it qualifies)?</b>										<b>No</b>

<sup>1</sup> Results used in Year 1 (baseline year) closeout and payment. In some instances, data have been resubmitted (see "Final baseline"). Note the final baseline is used to calculate individual improvement targets and determine Year 2 achievement.

<sup>2</sup> Note that if hospital achieved benchmark in the baseline year, improvement target is equal to the benchmark. For more information about improvement target calculations can be found online (see web address below)

<sup>3</sup> For SBIRT, hospitals are allowed to report either the brief or full screening rate. There are separate benchmarks for each.

Measure specifications and more information are available online at: [www.oregon.gov/oha/analytics/Pages/Hospital-Baseline-Data.aspx](http://www.oregon.gov/oha/analytics/Pages/Hospital-Baseline-Data.aspx)
