

Moda Health Update

Moda Health will stop offering individual marketplace plans in some Oregon counties beginning in 2027.

PEBB members are not affected by this change.

This change only affects Moda Health's individual marketplace plans. The individual marketplace is where people can buy health insurance for themselves or their family instead of getting coverage from an employer, Medicaid, or Medicare.

What this means for PEBB members

- PEBB members are not affected.
 - Moda Health will continue to offer PEBB plans in all Oregon counties. Nothing changes for 2026 or 2027.
- Connexus network providers stay the same.
 - PEBB members can keep using their plans and the Connexus network just like they do today.
- All other Moda Health plans remain the same.
 - Only individual marketplace plans in certain counties are impacted.
