Welcome & introductions

Share name and pronouns

What are three identities you hold?

An identity is any aspect – or descriptor of yourself - that is important to you.

Follow-up from last meeting

- Subcommittee charter finalized
 - Clarified role of delegate
 - Consensus process includes discussion for those who are thumbs sideways/thumbs down
- Supporting sector specific meetings
- Move December meeting – December 20th or January 9th?

Getting clear on language

Vision: Oregon will be a place where health and wellbeing are achieved across the lifespan for people of all races, ethnicities, disabilities, genders, sexual orientations, socioeconomic status, nationalities and geographic locations.

Goal: Broad statement(s) of what we're trying to accomplish within a given priority area to achieve the vision.

Outcome indicator: Long term measure that would indicate goal is achieved.

Strategy: Policy, community and individual level interventions needed to achieve the goal

Process indicator: Short term measure that would indicate strategy has been achieved.

Actions: Specific tasks needed to implement strategy

Getting clear on language - Example

Vision: Oregon will be a place where health and wellbeing are achieved across the lifespan for people of all races, ethnicities, disabilities, genders, sexual orientations, socioeconomic status, nationalities and geographic locations.

Goal(s): Improve health by decreasing economic and social inequities

Outcome indicator: Poverty level

Strategy: Renew and raise Oregon's earned income tax credit (EITC)

Process indicator: Percentage of eligible families who claim the EITC

Examples from other subcommittees

Adversity, trauma and toxic stress

- Increase resilience by promoting safe, connected and strengths-based individuals, families, caregivers and communities

Behavioral health

- Reduce stigma and increase community awareness that behavioral health issues are common and widely experienced.

Access to equitable preventive health care

- Increase equitable access to and uptake of clinical preventive services

Finalizing the goal

Overall goal - Improve health by decreasing economic and social inequities

Cost of caregiving

Economic viability

Food insecurity

Physical environment

Process for measure identification

PUBLIC HEALTH DIVISION

Office of the State Public Health Director

Oregon
Health
Authority

Proposed process for outcome measure development

- Goal: Identify 2-3 key indicators for the priority area
 - Communicate hoped for changes
 - May be long-term in nature (>5 years)
 - Model indicator for CHIPs and other implementers
 - Measure progress towards goal
- Process for development
 - Identify possible outcome measures from State Health Indicators and other data sources
 - Apply criteria to narrow measures
 - Identify baseline and target

Proposed outcome measurement criteria

Criteria	Definition
Addresses health disparity	Measure health disparity
Community acceptance	Right measure for the issue, measure is easy to understand by all community members
Feasible	Data is already collected, or mechanism for data has been identified

Potential indicators	Disparity	Feasible	Accepted?
Poverty rate (American Community Survey)	X	x	
Income inequality (American Community Survey)	X	x	
Unemployment (Bureau of Labor Statistics)	X	X	
Food insecurity (Map the Meal Gap)	x	x	
Rent burden (American Community Survey)	x	X	
Homelessness (Point in time Count)	x	X	
Caregiver health (BRFSS)	x	X	
Active transportation (American Community Survey)	x	x	
Elevated childhood blood lead levels (CDC Lead Poisoning Prevention Program)	X	X
