Notes:

The results from the prioritization polls are being used today to support the discussion by the workgroup. Workgroup members received the results of workforce prioritization needs as an attachment in the email sent for this meeting.

These reflection questions are provided to support workgroup discussion.

- Is there a top priority that is missing from your perspective?
- Who needs to be engaged to understand the priority needs further?
- Are there parts of the public health system's workforce that aren't being addressed in the prioritized needs?

OHA will bring the Workgroup's prioritized workforce needs to engagement sessions with the public health workforce in July and August.
