

Sex Designation on Birth Certificates

The OVERS system has a new option for sex designation for the decedent. The selections of Female, Male, and Undetermined are still available. You will now also see X, the nonbinary option. It can be selected in OVERS and will print on the birth certificate.

How this will affect your records process:

You will see X as an option for sex in **Start/Edit New Search** and **Birth Search** pages. Consequently you can also see X selected for sex on **Child** and **Birth Search Results** pages.

Start/Edit New Search: Here you can see X in the dropdown menu when starting or editing a case.
