

Birth Parent Worksheet Checklist

Complete and accurate responses on the birth parent and facility worksheets help many public health programs. The responses are a crucial source of information that can be used to identify population problems, monitor progress in public health and inform public policy to improve the health of all Oregonians.

It is important for staff to ask parents for the answers to any question that is left blank on the parent worksheet before the parents leave the facility.

Checklist for items that are frequently left blank on the Birth Parent Worksheet:

- Residence Inside City Limits – Birth Mother selects whether their residence is within city limits.
- Education – Birth Mother and Father/Second Parent select the highest level of education that they have completed.
- Race or Ethnicity – Both part A and part B should be completed by the Birth Mother and Father/Second Parent.
- Race or Ethnicity Part A – Birth Mother and Father/Second Parent should write in how they identify their race, ethnicity, tribal affiliation, country of origin, or ancestry.

Birth Facility Worksheet Checklist

The Center for Health Statistics receives a report from the National Center for Health Statistics with an analysis of the birth data we send them. Part of the analysis has information about records that had “unknown” as a data point. There is a specific percentage threshold of unknowns that is acceptable; this percentage is called the tolerance level. It is important to keep our level of unknowns below the tolerance level as much as possible.
