Information for State Users: How to locate and view marriage and divorce records

Oregon Vital Events Registration System (OVERS)

September 2016

Health Authority

Objectives

By the end of this session, you will gain the information necessary to:

- Use the new OVERS screens to locate and view marriage and divorce records in OVERS
- Access helpful materials and contact OVERS with questions

Center for Public Health Practice Center for Health Statistics

2

The time has come...

- As of September 2016, the Mainframe will no longer be used to search for marriage and divorce records.
- OVERS will now hold all marriage, divorce, birth, and death records.
- This training will focus solely on searching for marriage and divorce records within OVERS.

Confidentiality Reminders

To gain access to OVERS, fill out an enrollment form (<u>http://bit.ly/OVERSstateuser</u>) have your manager sign it, and fax it to 971-673-1201.

- OVERS is a <u>secure</u>, confidential system, that should be used only for its <u>intended</u> <u>purposes</u> and when the information is <u>necessary for your official work tasks</u>.
- Do not release vital record information to *anyone*, not even the person named on the record, unless the release is for your official tasks. This includes verbal and written information.
- If information in OVERS does not match the client's report, you may <u>not</u> tell the client which item on the record does not match their report.

Logging in

Go to http://bit.ly/overslogon (this can be saved as a 'Favorite')

OVERS Home Page

Upon logging into OVERS, you will be taken to the Home Page. There are two ways to begin performing a record search:

- The Order Processing tab in the top menu <u>or</u>
- The Fast Links (which only appear once you have accessed those screens)

| Place of Event City: Place of Event County Klamath | | | | | | |
| Number of rows to be returned | | | | | | |
| Search Soundex New Search | | | | | | |

Fill in two to three fields to search for a record.

Do not change the "Number of rows to be returned".

| Event Search | |
|--|------------------------------------|
| Party A First: Middle: Last: Ander% Party B First: Middle: Last: Last: | Unsure of correct |
| Date of Marriage Start: End: | spelling or formatting? Use the |
| Place of Event City: Place of Event County | wildcard symbol: |
| Number of rows to be returned: 200 | % |
| Search Soundex New Search | |

Click either "Search" or "Soundex".

(Soundex will search names that *sound like* the name(s) you entered)

(Enter) DEPARTMENT (ALL CAPS) (Enter) Division or Office (Mixed Case)

Results will then display under "Select Matching Event".

If after performing a search you see "**No Matching Event**", this means that OVERS could not find any records that matched your search criteria. Consider modifying your search and entering less criteria.

| Select Matching Event | | | | | |
|-----------------------|-------------------|--|--|--|--|
| ۲ | No Matching Event | | | | |
| | | | | | |

Remember: OVERS only contains records occurring in Oregon

Here is an example of when events matched the search criteria entered.

Marriage Certificate Number SFN must be shown in order to use the record

Click **Preview**. Either 1 a preview of record information will be displayed (for records converted from the Mainframe) <u>or</u> 2 a preview of the certificate will open (for 2016 records on). <u>Either view can be used to verify record information.</u>

Preview Screen Legend for Converted Records:

File Number/State File Number: Marriage Certificate Number; if there is none listed, the record has not been registered as a vital record.

Party A & B information: Previously referred to as Bride/Groom in Mainframe.

Place of Marriage: City and County where Marriage took place.

Date Filed/Party A & B Birthplace/Date of Birth: These fields will be left blank because they didn't appear in the Mainframe.

Date of Marriage: Marriage date.

Status: "Registered" indicates the record has been registered with the State. "Converted" indicates the record was converted from the Mainframe.
