Legend:

 = Will be blank if the record was converted from the mainframe*			
All information on the Preview screen is specific to the information reported at the time of birth, unless amendments have been made to the record. The Preview will not show all amendments made to the record. See Letter I below.			
Letter	Description	Letter	Description
A	Date of Event - Date of the child's birth	F	Child Status - Will show "deceased" if the birth record has been matched to a death record, indicating the individual is now deceased. - If the birth record has not been matched to a death record, it will be blank.
B	SFN – State File Number/Birth Certificate Number - If there is no SFN listed, the record is not yet registered as a vital record.		
C	Place of Event - The county of the child's birth	G	AOP – Acknowledgment of Paternity - Displays status of an AOP completed by the parents at the facility of birth and the date of approval or rejection
D	Mother's Current Name - Mother's legal name at the time of the birth (unless she has made a change to this record)		
E	Marital Status - Mother's self-reported marital status at the time of birth, including at conception or 300 days (approx. 10 months) prior to the birth	H	Amendment - Amendments are changes made after the record is registered. - Displays only paternity amendment(s) made on the record and the date of the amendment(s) (Ex: legitimation, filiation, rescind paternity)
*A record with a date of birth before 2008 was originally entered into the mainframe and has been transferred into OVERS.
