<sup>2</sup> Abortion estimates are based on reports for Oregon residents whether occurring in Oregon or another state. For years prior to 1985 (and in 1986-1987) abortion estimates were based on Oregon occurrences only, but included abortions obtained by out-of-state residents. Because some neighboring states do not report abortions to the state of residence (especially California), this results in minimal estimates for both abortions and pregnancies.

NA = Not Available

All rates are per 1,000 females.

– Quantity is zero.

<sup>1</sup> All rates per 1,000 females.

<sup>2</sup> Total includes 35 pregnancies where county of residence was unknown.

§ Pregnancy rate is significantly different from the state.

\* Detailed reporting of small numbers may breach confidentiality.

WARNING: Rates based on less than 5 events are unreliable.

NOTE: Includes births and reported abortions including those obtained out-of-state by Oregon residents. Because some states (e.g., California) do not record data on residence for abortion patients, not all out-of-state abortions are included.

— Quantity is zero.

<sup>1</sup> All rates per 1,000 females.

<sup>2</sup> Total includes 69 abortions where county of residence was unknown.

§ Abortion rate is significantly different from the state.

\* Detailed reporting of small numbers may breach confidentiality.

WARNING: Rates based on less than 5 events are unreliable.

NOTE: Includes abortions obtained out-of-state by Oregon residents. Because some states (e.g., California) do not record data on residence for abortion patients, not all out-of-state abortions are included.

— Quantity is zero.

<sup>1</sup> Less than 5 prenatal visits or care began in the third trimester.

<sup>2</sup> Rates per 1,000 females 15-19 years of age.

<sup>3</sup> Rates per 1,000 births to 15-19 year olds.

§ Rate is significantly different from the state.

\* Detailed reporting of small numbers may breach confidentiality.

WARNING: Rates based on less than 5 events are unreliable.

NOTE: Rates and percentages are calculated excluding missing and unknown values.
