<b>Maternal deaths</b>	<b>Residents</b>	Oregon's average maternal death rate for 2010–14 was 18.5. Oregon's average maternal death rate for 2009–13 (17.5) was 27.7% lower than the average U.S. rate <sup>1</sup> for 2009–13 (24.3).
Number	9	
Rate	19.8	
<sup>1</sup> National Center for Health Statistics (NCHS) National Vital Statistics Reports, final 2009-2013, are the most recent available.  NOTE: Crude death rates are per 1,000 population; infant and neonatal rates per 1,000 live resident births; maternal death rates per 100,000 live resident births. In 2006, the method of calculating maternal death changed to include a longer time frame after the birth.
