- Quantity is zero.

¹ Term early neonatal deaths include infant deaths of less than seven days and with gestation of 37 weeks or more.

² For planned hospital births, actual attendant type is used.

³ For planned out-of-hospital births with intrapartum transfer to hospitals, planned attendant type is reported by mother and not verified.

⁴ For planned out-of-hospital births with non-hospital deliveries, the actual attendant type is used.

NOTE: The 2019 birth cohort may include infant deaths that occurred in 2019 or 2020. Data for 2020 are undergoing editing processes and are subject to change.
