- Quantity is zero.

¹ Term fetal deaths include fetal deaths with gestation of 37 weeks or more.

² Total includes one fetal death that occurred en route, was an unplanned home deliveries, or was an out-of-hospital delivery not otherwise classified.

³ For planned hospital births, actual attendant type is used.

⁴ For planned out-of-hospital births with intrapartum transfer to hospitals, planned attendant type is reported by mother and not verified.

⁵ For planned out-of-hospital births with non-hospital deliveries, the actual attendant type is used.
