- Data not available.

\*\* Incomplete total; ratio not calculated.

<sup>1</sup> Prior to 2006, the number of maternal deaths only included deaths that occurred during pregnancy or within 42 days of delivery. Since 2006, the number of maternal deaths includes deaths that occurred during pregnancy or within one year of pregnancy.

<sup>2</sup> Infant deaths occur in the first year of life.

<sup>3</sup> Neonatal deaths occur within the first 27 days of life.

<sup>4</sup> Fetal deaths include fetuses whose birth weight was at least 350 grams or, if birth weight was unknown, whose gestational age was at least 20 weeks.

<sup>5</sup> Per 100,000 live births.

<sup>6</sup> Per 1,000 live births.
