Appendix A

Acknowledgment of Participating Schools

Oregon's 1997 Youth Risk Behavior survey (YRBS) was coordinated by the Oregon Center for Health Statistics and the Oregon Department of Education.

"I love my school based health Center! It is easy to access, it is confidential, and I like the staff. Are you guys the ones who started this? if so THANK YOU!"

The Oregon Health Services and the Oregon Department of Education sincerely appreciate the superintendents, principals, teachers, counselors, and nurses who gave their time and energy to administer this survey. Thanks also go to the students at the following schools who participated in the survey. The Oregon Health Services and Oregon Department of Education are releasing YRBS data only on a statewide basis.

"It's not fair that your parents have to sign a permission slip for you to use the teen health center. I would use it but my parents would not sign the card."

* Schools that have a School-based Health Center.

"I love our school based health clinic, without I would probably have gotten pregnant by now, they're life savers."
