<sup>1</sup> Multiple contraceptive methods may be reported for a single patient.

<sup>2</sup> Reported complications. Categorized as none if no specific complication was reported.

<sup>3</sup> Patients having more than one complication are listed here. Their complications are not listed above.

NOTE: Includes reported abortions to Oregon residents including those obtained out-of-state. Because some states (e.g., California) do not record data on residence for abortion patients, not all out-of-state abortions are included.
