Source: Oregon State Cancer Registry. Note: Rates are per 1,000,000 and age-adjusted to the 2000 U.S. Standard Population (19 age groups - Census P25-1130). ^Data are not displayed when there are fewer than 11 cases to ensure patient confidentiality, as per Oregon State Cancer Registry policy. *Data are displayed for Polk County, despite having fewer than 11 cases, given ongoing community concerns about osteosarcoma in the West Salem area.
